Contents

Vol. 1, No. 1, 2019

Modeling Membrane Gas and Vapor Separation in the Aspen Plus Environment

A. A. Kozlova, M. M. Trubyanov, A. A. Atlaskin, N. R. Yanbikov, and M. G. Shalygin 1

Microwave Stabilization of a Dynamic Membrane Layer

D. D. Fazullin, G. V. Mavrin, I. G. Shaikhiev, and I. R. Nizameev 6

Application of Sodium Chloride Solutions to Regeneration of Anion-Exchange Membranes Used for Improving Grape Juices and Wines

E. E. Nevakshenova, V. V. Sarapulova, V. V. Nikonenko, and N. D. Pismenskaya 14

Ionic Conductivity of Ion-Exchange Membranes Based on Polynaphthoylenimide Doped by Phosphate-Modified Zirconia

S. A. Makulova, Yu. A. Karavanova, I. I. Ponomarev, I. A. Stenina, Yu. A. Volkova, and A. B. Yaroslavtsev 23

Optical Properties of Regular Track-Etched Poly(ethylene terephthalate) Membranes

V. A. Fiodorov, A. B. Vasiliev, V. P. Nazmov, B. G. Goldenberg, S. A. Bedin, and V. V. Berezkin 27

A Technological Method for Optimizing the Integrated Resource- and Energy-Saving Factor in the Membrane Recovery of Helium from Stripped High-Pressure Natural Gas

V. I. Solomakhin 31

Antibacterial Properties of Microfiltration Membranes Modified by Silver Nitrate

D. D. Fazullin and G. V. Mavrin 39
