Vol. 71, No. 11, 2008

Simultaneous English language translation of the journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Physics of Atomic Nuclei* ISSN 1063-7788.

Nuclei

Experiment

- On the Mechanism of Formation of Excited States of the ^8Be Nucleus in the Reaction $^{12}\text{C}(\gamma, 3\alpha)$
S. N. Afanas'ev and A. F. Khodyachikh 1827
- Investigation of Multipole Mixtures in Gamma Transitions by Means of the Reaction $^{232}\text{Th}(n, n'\gamma)$
A. M. Demidov, L. I. Govor, V. A. Kurkin, and I. V. Mikhailov 1839
- Measurement of Cumulative-Photon Spectra at High Transverse Momenta
in $^{12}\text{C}^9\text{Be}$ Interactions at an Energy of 3.2 GeV per Nucleon
*I. G. Alekseev, V. E. Vishnyakov, A. I. Golutvin, V. S. Goryachev,
G. B. Dzubenko, A. G. Dolgolenko, B. V. Zagreev, S. M. Kiselev,
I. E. Korolko, G. A. Leksin, K. R. Mikhaylov, P. A. Polozov,
M. S. Prokudin, D. N. Svirida, A. V. Stavinsky, V. L. Stolin, and G. B. Sharkov* 1848
- Determination of Partial-Wave Inelasticities for Elastic Pion–Nucleon Scattering
with the Aid of Experimental Data on $\pi N \rightarrow \pi\pi N$ Processes
in the Beam-Momentum Range $300 < P_{\text{beam}} < 500 \text{ MeV}/c$
V. A. Kozhevnikov and S. G. Sherman 1860
- Measurement of Cross Sections for Inelastic Cold-Neutron Scattering in Metals and Polymers
by the Method of (n, γ) Analysis
*S. S. Arzumanov, L. N. Bondarenko, P. Geltenbort,
V. I. Morozov, Yu. N. Panin, and S. M. Chernyavsky* 1880
-

Theory

- Angular Distribution of Products of Ternary Nuclear Fission Induced
by Cold Polarized Neutrons
V. E. Bunakov, S. G. Kadmensky, and S. S. Kadmensky 1887
- Basic Parameters of the Gamma-Decay Process and Properties
of the ^{174}Yb Nucleus That Manifest Themselves
in Radiative Resonance- and Thermal-Neutron Capture
A. M. Sukhovoj 1907
- Comparing Some Predictions between Davidson-Like Potentials and Interacting Boson Model:
 $X(5)$ Behavior of Even–Even $^{128-140}\text{Nd}$ Isotopes
N. Turkan and I. Inci 1918
- Asymmetric Nuclear Matter and Skyrme Potential
H. M. M. Mansour and Z. Metawei 1926

Coulomb Breakup of Neutron-Rich Isotopes of Light Nuclei

P. Singh, R. Kumar, and R. Kharab

1932

Elementary Particles and Fields

Experiment

Systematization of the Yields of Products of Photonuclear Reactions on Enriched-Tin Targets at the Bremsstrahlung-Photon Endpoint Energy of 4.5 GeV

A. R. Balabekyan

1940

Azimuthal Correlations and Alignment of Particles in Gamma Families

T. S. Yuldashbaev, V. M. Chudakov, and Kh. Nuritdinov

1944

Theory

Isospin-Symmetry Breaking in the Scalar and Pseudoscalar Channels of Radiative J/ψ -Particle Decay

V. V. Kiselev

1951

Absorption of ϕ Mesons in Near-Threshold Proton-Nucleus Reactions

E. Ya. Paryev

1954

Nonperturbative Phenomena in QCD at Finite Temperature in a Magnetic Field

N. O. Agasian

1967

Effects of Mesonic Correlations in the QCD Phase Transition

D. Blaschke, M. Buballa, A. E. Radzhabov, and M. K. Volkov

1981

Glauber Shadowing in Jet and Particle Production in Nucleus-Nucleus Collisions within Perturbative QCD

M. A. Braun and A. V. Svyatkovskiy

1988

Letters to the Editor

Description of the Tensor Analyzing Powers of the Deuteron-Photodisintegration Reaction $\gamma d \rightarrow np$

V. A. Knyr and N. A. Khokhlov

1994

Obituary

Vasilii Vasil'evich Vladimirovsky (August 2, 1915–August 24, 2008)

1997

Future Publications

1999
