Vol. 82, No. 2, 2019

Nuclei

Experiment

Charged Particles of Energy in Excess of Evaporation Energy from K^--Meson Absorption by Nuclei
V. V. Dubinina, N. P. Egorenkova, E. A. Pozharova, and V. A. Smirnitsky 83

Searches for Neutrinoless Double-Beta Decay of the Isotope ^{150}Nd by Means of a Liquid Organic Scintillator Detector
I. R. Barabanov, L. B. Bezrukov, A. V. Veresnikova, Yu. M. Gavriluk, V. I. Gurentsov, V. V. Kazalov, V. V. Kuzminov, G. Ya. Novikova, S. V. Semenov, V. V. Sinev, G. O. Tsvetkov, and E. A. Yanovich 89

On the Possibility of Measuring the Ratio G_A/G_V by means of Polarized Ultracold Neutrons
A. P. Serebrov, O. M. Zherebtsov, A. N. Murashkin, G. N. Klyushnikov, and A. K. Fomin 98

Theory

Precise Mass Calculations for Atomic Nuclei of Isospin $T_z = 51/2, 26, 53/2, 55/2, 28$, and $57/2$ with Restored Spin–Isospin $SU(4)$ Symmetry
A. M. Nurmukhamedov 108

Decoupling Parameter for Rotational Bands Based on Mixed-Symmetry States
R. V. Jolos, E. A. Kolganova, and D. A. Sazonov 117

Effect of Dynamical Pairing of the Beta-Decay Properties of Neutron-Rich Nuclei
E. O. Sushenok, A. P. Severyukhin, N. N. Arsenyev, and I. N. Borzov 120

Neutral-Pion Photoproduction on a ^{7}Li Nucleus in the Excitation Region of the First Pion–Nucleon Resonance
V. A. Tryasuchev, A. G. Kondratyeva, and A. S. Gogolev 128

Elementary Particles and Fields

Experiment

Energy Dependence of the Ratio of the Elastic-to-Total Cross Sections for Proton–Proton and Antiproton–Proton Collisions
V. A. Okorokov 134

Theory

CP Properties of Leptons within the Mirror Mechanism
I. T. Dyatlov 144

Vacuum Polarization in a Zero-Range Potential Field
Yu. V. Grats 153

Threshold Resummation S-Factor for a System of Two Relativistic Spinor Quarks
Yu. D. Chernichenko 158

Charge Splitting in $\pi N\Delta$ Form Factor
A. B. Gridnev, V. V. Abaev, and N. G. Kozlenko 163

Fermion Mass and Mixing in a Simple Extension of the Standard Model Based on T_7 Flavor Symmetry
V. V. Vien and H. N. Long 168

Final-State Two-Loop Radiative Corrections to the Drell–Yan Process at the LHC in the Soft-Photon Approximation
V. A. Zykunov 183
