Nuclei

Theory

Change in the Shape of Nuclei in the Chains of Krypton, Strontium, Zirconium, Molybdenum, and Ruthenium Isotopes in the Relativistic-Mean-Field Approximation

V. I. Kuprikov and V. N. Tarasov 191

Critical Point of the ^{152}Sm, ^{154}Gd, and ^{156}Dy Isotones

Mushtaq Abed Al-Jubbori, Huda H. Kassim, Fahmi Sh. Radhi, Amin Attarzadeh, I. Hossain, Imad M. Ahmed, and Fadhil I. Sharrad 201

Proceedings of International Conference NUCLEI-2018 (LXVIII International Conference on Nuclear Spectroscopy and Nuclear Structure, Voronezh, Russia, July 2–6, 2018)*

Nuclei

Experiment

Evaluation of Reliable Cross Sections of Photoneutron Reactions on ^{103}Rh and ^{165}Ho Nuclei

V. V. Varlamov, A. I. Davydov, and V. D. Kaidarova 212

Special Features of Nuclear Reactions Involving Loosely Bound Cluster Nuclei

Yu. E. Penionzhkevich 224

Polarization Features of the ^{24}Mg(2^+) Nucleus Produced in the Reaction ^{27}Al$(p,\alpha)^{24}$Mg(2^+)

L. I. Galanina, N. S. Zelenskaya, V. M. Lebedev, N. V. Orlova, A. V. Spassky, and I. S. Tiurin 233

Electronic Catalogue of Mesoroentgen Spectra

D. R. Zinatulina 243

On Ternary Fission Induced by Neutrons

G. V. Danilyan 250

Theory

Decisive Role of Interference Effects in Describing T-Odd Asymmetries in Reactions Induced by Polarized Cold Neutrons

S. G. Kadmensky, L. V. Titova, and V. E. Bunakov 254

Relation of Experimental Features of P-Even, T-Odd Asymmetries in Ternary Nuclear Fission Induced by Cold Polarized Neutrons to Triple and Quintuple Scalar Correlations

S. G. Kadmensky, D. E. Lyubashevsky, and P. V. Kostryukov 267

* Edited by Prof. N.S. Zelenskaya. Beginning of publication.

Critical Comments on the T-Null Theorem and New Approach to Searches for T-Invariance Violation in Quantum Systems

S. G. Kadmensky and P. V. Kostryukov 274

Elementary Particles and Fields

Theory

Comparative Analysis of CP Violation in the Exponential and Standard Parametrizations of the Neutrino Mixing Matrix

A. A. Davydova and K. V. Zhukovsky 281

Study of Hadrons Produced in Proton–Carbon Interactions at 120 GeV/c Using Hadron-Production Models

M. Ajaz, Y. Ali, S. Ullah, Q. Ali, and H. Younis 291

Analytic Calculations of the Branching Ratio and CP Violation in $B_s^0 \to K^{*0}\bar{K}^{*0}$ Decay

A. Kamal, H. R. Khan, and H. A. Alhendi 299
