Contents

Vol. 12, No. 1, 2019

Positive Periodic Solutions for a Class of Fourth-Order Nonlinear Differential Equations
N. Bouteraa and S. Benaicha 1

A Boundary Value Problem of Magnetoporosity in Near-Wellbore Space
Sh. Kh. Imomnazarov and M. V. Urev 15

A Stochastic Ensemble Kalman Filter with Perturbation Ensemble Transformation
E. G. Klimova 26

Compact Difference Schemes and Layer Resolving Grids for Numerical Modeling of Problems with Boundary and Interior Layers
V. D. Liseikin and V. I. Paasonen 37

A Newton–Kantorovich Method in Inverse Source Problems for Production-Destruction Models with Time Series-Type Measurement Data
A. V. Penenko 51

A Study of an Inverse Boundary Value Problem for the Heat Conduction Equation
A. I. Sidikova 70

An Efficient Direct Method for Numerically Solving the Cauchy Problem for Laplace's Equation
S. B. Sorokin 87
