### Optical Information Technologies

Diffraction Depth of Three-Dimensional Images Stimulating Eye Accommodation <i>A. M. Kovalev and E. V. Vlasov</i>	1
Sensitivity of an Optimized Contour Mask Technique to Errors in Fabricating Piecewise Continuous Relief Diffractive Optical Elements <i>V. P. Korol'kov</i>	6
Adaptive Thresholding of Differential Interferograms <i>E. V. Sysoev and A. K. Potashnikov</i>	16

---

### Analysis and Synthesis of Signals and Images

Solving Problems of Using Some Nonparametric Goodness-of-Fit Tests <i>B. Yu. Lemeshko, A. A. Gorbunova, S. B. Lemeshko, and A. P. Rogozhnikov</i>	21
On the Power of a New Statistical Test and Two-Sample Wilcoxon Test <i>G. I. Salov</i>	36
Applying the Variational Method to the Problem of Estimating Signal Parameters in Passive Radar with External Illumination <i>N. G. Parkhomenko, A. A. Peretyat'ko, Ya. A. Reizenkind, V. S. Onishchenko, and V. N. Shevchenko</i>	49
Comparative Analysis of the Efficiency of the Kalman Filter and Particle Filter in Solving the Problem of Object Tracking in a Seismic Security System <i>S. A. Alyamkin and E. S. Nezhevenko</i>	54
Smoothing of Vector Fields by Using the Bezier Surface for Strain Estimation by the Method of Digital Image Correlation <i>S. V. Panin, V. V. Titkov, and P. S. Lyubutin</i>	61
Effect of Data Incompleteness on the Approximation Properties of Nonparametric Estimation of the Two-Dimensional Probability Density of Independent Random Variables <i>A. V. Lapko and V. A. Lapko</i>	68

---

### Physical and Engineering Fundamentals of Microelectronics and Optoelectronics

Suppression of Side Lobes in the Fiber Bragg Grating Reflection Spectrum <i>S. R. Abdullina and A. A. Vlasov</i>	75
MIS Photodiode with an InAs-Based Tunnel-Transparent Oxide Layer <i>V. G. Kesler, A. A. Guzev, A. P. Kovchautsev, A. V. Tsarenko, and Z. V. Panova</i>	87

Nonlinear Optical Properties of Chromophore-Containing Polyimides  
with Covalently Attached Dyes

*A. I. Gorkovenko, A. I. Plekhanov, A. E. Simanchuk, A. V. Yakimanskii,  
N. N. Smirnov, N. A. Solovskaya, and G. I. Nosova*
