Vol. 50, No. 3, 2014

A simultaneous English language translation of this journal is available from Allerton Press, Inc.,

Distributed worldwide by Springer. *Optoelectronics, Instrumentation and Data Processing* ISSN 8756-6990.

Fundamental Problems of Epitaxy of Semiconductor Nanoheterostructures

- Formation of Ge/Si and Ge/Ge_xSi_{1-x}/Si Nanoheterostructures by Molecular Beam Epitaxy
A. I. Nikiforov, V. A. Timofeev, S. A. Teys, and O. P. Pchelyakov 217
- Heteroepitaxy of A^{III}B^V Films on Vicinal Si(001) Substrates
*E. A. Emelyanov, D. F. Feklin, M. A. Putyato, B. R. Semyagin,
A. K. Gutakovskii, V. A. Seleznev, A. P. Vasilenko, D. S. Abramkin,
O. P. Pchelyakov, V. V. Preobrazhenskii, N. Zhicuan, and N. Haiqiao* 224
- Dislocations in CdTe Heteroepitaxial Structures on GaAs(301) and Si(301) Substrates
Yu. G. Sidorov, M. V. Yakushev, and A. V. Kolesnikov 234
- Atomic Structure of Extended Defects in Boron-Implanted Silicon Layers
L. I. Fedina, A. K. Gutakovskii, and A. V. Latyshev 241
-

Numerical Simulation of the Growth Processes, Strain Fields, and Energy Spectrum of Nanoheterostructures

- Formation of Germanium Nanoislands on Pit-Patterned Silicon Substrates
by Means of the Molecular Dynamics Method
P. L. Novikov, Zh. V. Smagina, and A. V. Dvurechenskii 247
- Interlevel Optical Transitions in Si/Ge_xSi_{1-x}/Si Quantum Wells
A. A. Bloskin 252
- Optimization Tools of Parallel Simulation of Nanostructures with Quantum Dots
K. V. Pavskii, M. G. Kurnosov, and A. Yu. Polyakov 260
-

Fundamental Problems of Photonic Devices Based on Semiconductor Heterostructures

- Mesoscopic Structures with GE Quantum Dots in SI for Single-Photon Detectors
*N. P. Stepina, V. V. Val'kovskii, A. V. Dvurechenskii, A. I. Nikiforov, J. Moers,
and D. Gruetzmacher* 266
- Electron-Phonon Interaction and Raman Scattering in Doped GaAs/AlAs Superlattices
V. A. Volodin 271
-

Semiconductor Nanoheterostructures for Microwave Electronics and Spintronics

- Analysis of the Microwave Loss in AlGaAs/GaAs Heterostructure *pin*-Diodes
A. K. Shestakov and K. S. Zhuravlev 276
- Spectral Characteristics of Microwave and Infrared Metamaterials
with Three-Dimensional Resonators
V. A. Seyfi and V. Ya. Prinz 283
- Effect of Spin Polarization of Excitons on the Energy Spectra
of GaAs/AlGaAs Heterostructures
E. V. Kozhemyakina and K. S. Zhuravlev 287
-

Multilayer Heterophase Electronic Materials

Phase Separation as a Basis for the Formation of Light-Emitting Silicon Nanoclusters in SiO _x Films Irradiated with Swift Heavy Ions <i>S. G. Cherkova, G. A. Kachurin, V. A. Volodin, A. G. Cherkov, D. V. Marin, and V. A. Skuratov</i>	292
Producing Arrays of Graphene and Few-Layer Graphene Quantum Dots in a Fluorographene Matrix <i>N. A. Nebogatikova, I. V. Antonova, A. I. Komonov, and V. Ya. Prinz</i>	298
Electron Microscopic Studies of CuS Nanocrystals Formed in Langmuir–Blodgett Films <i>A. K. Gutakovskii, L. L. Sveshnikova, S. A. Batsanov, and N. A. Eryukov</i>	304
Charge Carrier Transport Mechanism in High- κ Dielectrics and Their Based Resistive Memory Cells <i>D. R. Islamov, V. A. Gritsenko, C. H. Cheng, and A. Chin</i>	310
Electroosmotic Pump Based on Asymmetric Silicon Microchannel Membranes <i>M. A. Parashchenko, N. S. Filippov, V. V. Kirienko, and S. I. Romanov</i>	315
