Optical Information Technologies

- Multibeam Laser Writing of Diffractive Optical Elements
A. G. Poleshchuk, R. A. Sametov, and A. G. Sedukhin 327
- Eye Models with a Diffractive-Refractive Lens
G. A. Lenkova 334
- Reconfigurable Holographic Interferometer with Fixed Mirrors
S. L. Mikerin and V. D. Ugozhaev 341
- Quality of a Three-Dimensional Image Stimulating Eye Accommodation
A. M. Kovalev and E. V. Vlasov 351
- Numerical Simulation of a Reflective Diffraction Fiber Interferometer
V. S. Terent'ev 358
- Effect of Temperature on Properties of Polarization Holographic Gratings Formed
in Liquid Crystal Composites
G. M. Zharkova, A. P. Petrov, S. A. Strel'tsov, and V. M. Khachatryan 369
- Manufacturing-Oriented Developments of Silicon Multiplexers for Multielement IR
Photodetectors
A. I. Kozlov and I. V. Marchishin 373
- Device for the Study of Nonequilibrium Phenomena in Semiconductor Structures
V. N. V'yukhin and Yu. A. Popov 384

Physical and Engineering Fundamentals of Microelectronics and Optoelectronics

- Magneto-optical Resonances in Cells with Residual Buffer Gas in Elliptical Polarization
of Radiation
K. A. Nasyrov and S. Cartaleva 389
- Spectroscopy of the Cross Section of Inelastic Scattering of Electrons in SiO₂/Si(100)
Layered Systems
*A. S. Parshin, S. A. Kushchenkov, O. P. Pchelyakov, Yu. L. Mikhlin,
and T. Khasanov* 396
- Microelectromechanical Accelerator of Solids
E. G. Kostsov 401

Analysis and Synthesis of Signals and Images

- Detection of Spatial Objects Shadowing the Background
P. M. Yukhno 410
- Properties of the Nonparametric Decision Function with a Priori Information
on Independence of Attributes of Classified Objects
A. V. Lapko and V. A. Lapko 416
- Optimal Sampling of Phase-Shift Keyed Signals in the Problem of Determining
the Relative Time Delay
A. A. Loginov, O. A. Morozov, and M. Yu. Semenova 423
