### Automation Systems in Scientific Research and Industry

- Optimal Control of Nonlinear Objects of Engineering Thermophysics  
*E. Ya. Rapoport and Yu. E. Pleshivtseva* 429
- Features of Different Types of Automatic Extremum Seeking Systems  
Based on Localization Method  
*G. A. Frantsuzova* 438
- Calculation and Tuning of Controllers for Nonlinear Systems with Different-Rate Processes  
*V. D. Yurkevich* 447
- Control of Flight Parameters of a Quadrotor Vehicle Moving over a Given Trajectory  
*S. A. Belokon', Yu. N. Zolotukhin, A. S. Mal'tsev, A. A. Nesterov,  
M. N. Filippov, and A. P. Yan* 454
- Analytical Synthesis of Physically Implementable Controllers for Multivariable Objects  
Using the Embedding Technique  
*A. Z. Asanov and D. N. Demyanov* 462
- Discrete Adaptive Controllers for Systems with Parametric Disturbances  
*O. Ya. Shpilevaya* 469
- Control Adjustment of an Air-Gas Path Based on the Localization Principle  
*A. S. Vostrikov and A. A. Ponomarev* 476
- Control of Degeneration of Discrete Multichannel Systems with Multiple Discrete Intervals  
*N. A. Dudarenko, M. V. Polyakova, and A. V. Ushakov* 483
- Solution of the Inverse Problem of Measurement Dynamics Using the State Vector  
of a Primary Measuring Transducer  
*A. L. Shestakov, O. L. Ibryaeva, and D. Yu. Iosifov* 490

### Analysis and Synthesis of Signals and Images

- Construction of a Multichannel Filter for Detecting Point Targets in the Image Formed  
by a Matrix Photodetector  
*V. S. Kirichuk and V. P. Kosykh* 497
- Errorless Readout of Random Discrete-Point Fields  
*A. L. Reznik, V. M. Efimov, A. A. Solov'ev, and A. V. Torgov* 506
- Detection of Anthropogenic Zones by Means of Spatial Anomaly Detection in Large-Scale  
Satellite Images  
*S. M. Borzov and O. I. Potaturkin* 515
- Classification of Moving Objects Based on Spectral Features of Seismic Signals  
*D. O. Sokolova and A. A. Spektor* 522
- Increasing the Power of Nonparametric Tests of Scale Based on Grouping Data  
Using Order Statistics  
*M. A. Raifel'd* 529
-
