Vol. 50, No. 6, 2014

A simultaneous English language translation of this journal is available from Allerton Press, Inc.,
Distributed worldwide by Springer. *Optoelectronics, Instrumentation and Data Processing* ISSN 8756-6990.

Optical Information Technologies

- Optimization of Laser Micromachining Regimes
V. P. Bessmeltsev and E. D. Bulushev 533
- On Personal-Use Displays for Virtual Environments with Augmented Reality
A. M. Kovalev 549
-

Nanotechnologies in Optics and Electronics

- Nanoinhomogeneities in Glasses and Relaxors: How, When, and Why they Arise?
V. K. Malinovsky 556
-

Analysis and Synthesis of Signals and Images

- Maximum Likelihood Estimates of Signal Parameters of Laser Doppler Systems
V. S. Sobolev and S. A. Timokhin 566
- Two-Threshold Algorithm for Detecting Point Objects from Stereo Images
V. S. Kirichuk and A. K. Shakenov 577
- Reliability of Readout of Random Point Fields with a Limited Number of Threshold Levels
of the Scanning Aperture
A. L. Reznik, V. M. Efimov, A. A. Solov'ev, and A. V. Torgov 582
- Optimization of Wavelet Filtering Algorithms with Multiparameter Threshold Functions
Yu. E. Voskoboynikov 589
- Interpolated Estimation of Noise in an Airborne Electromagnetic System
for Mineral Exploration
A. A. Murasev and A. A. Spektor 598
- Method of Binary Search for Image Elements of Functionally Defined Objects
using Graphics Processing Units
S. I. Vyatkin 606
- Image Segmentation Based on the Analysis of Distances in an Attribute Space
P. A. Chochia 613
-

Modeling in Physical and Technical Research

- Analytical Synthesis of Functional Observers for Systems with Signal Perturbations
A. Z. Asanov and D. N. Dem'yanov 625
- Numerical Study of the Selection Algorithm of the Reference Velocity Distribution
in Kinematic Seismotomography
O. N. Belousova and S. M. Zerkal 632
-
-
