Plasma Lasers

CuBr–Ne–HBr Laser with a High Repetition Frequency of the Lasing Pulses at a Reducing of Energy Deposition in the Discharge

A. M. Boichenko, G. S. Evtushenko, V. O. Nekhoroshev, D. V. Shiyanov, and S. N. Torgaev 1

Nonlinear Waves in Metamaterials

Interaction of Ultrashort Elliptically Polarized Laser Pulses with Nonlinear Helical Photonic Metamaterial

V. A. Makarov, I. A. Perezhogin, and N. N. Potravkin 14

Possibility of Propagation of Dissipative Solitons in AC-Driven Superlattice

S. V. Kryuchkov and E. I. Kukhar' 21

Quantum Kinetics of Superlattices

Effect of Interminiband Tunneling on Complex Processes in a Semiconductor Superlattice

A. G. Balanov, A. A. Koronovskii, O. I. Moskalenko, A. O. Selskii, and A. E. Hramov 28

Defects and Statistics of Metamaterials

Spectral Properties of One-Dimensional Photonic Crystal with Anisotropic Defect Layer of Nanocomposite

S. Ya. Vetrov, P. S. Pankin, and I. V. Timofeev 35

The Effect of Statistical Variance of Particle Sizes on the Properties of a Metafilm

G. V. Belokopytov, Yu. E. Terekhov, R. Yu. Tkachenko, A. V. Zhuravlev, V. A. Chistyakov, and V. N. Semenenko 39

Optics of Quasi-Crystals

Optical Properties of 1D and 2D Approximants of Quasi-Crystalline Structures

P. V. Korolenko, P. A. Logachev, and Yu. V. Ryzhikova 46

Acousto-Optics

Development of Acousto-Optic Devices Based on Transformation of Acoustic Waves

N. V. Polikarpova, V. B. Voloshinov, and A. M. Reznikov 52

Investigation of the KLu(WO₄)₂ Crystal As an Acousto-Optic Material

D. Yu. Velikovskii, M. M. Mazur, A. A. Pavlyuk, V. E. Pozhar, S. F. Solodovnikov, and L. I. Yudanov 58

Internal Waves in Natural Waters

Effect of Internal Waves on the Sea Surface in Two-Dimensional Case

M. A. Shermeneva, I. V. Shugan, and H.-H. Hwung

68

Effect of Internal Waves on Intrusions in a Thermocline and on Upwelling

B. I. Samolyubov and I. N. Ivanova

76
