## Waves in Photonic Crystals

- Numerical Modeling of Wave Processes with Periods Shifted Relative to Each Other  
*M. A. Morozova, A. Yu. Sharaevskaya, O. V. Matveev, E. N. Beginin, and Yu. P. Sharaevskii* 1
- Photonic Waveguide Structures in Photorefractive Lithium Niobate with Pyroelectric Mechanism of Nonlinear Response  
*A. S. Perin, V. M. Shandarov, and V. Yu. Ryabchenok* 7
- Anomalous Bloch Oscillations in Arrays of Coupled Waveguides  
*M. I. Gozman, I. Ya. Polishchuk, and Yu. I. Polishchuk* 11
- 

## Wave Properties of Metamaterials

- Pattern Analysis of Fractal Properties in Multilayer Systems with Metamaterials  
*M. G. Davydova, P. V. Korolenko, S. B. Ryzhikov, and Yu. V. Ryzhikova* 17
- 

## Nonlinear Optics

- Phase Characteristics of High-Order Harmonics in the Cut-Off Region  
*M. A. Khokhlova and V. V. Strelkov* 22
- Interaction of a Probe Optical Signal with a Quasi-Periodical Sequence of High-Power Pump Pulses  
*T. A. Voytova, A. V. Yulin, and A. P. Sukhorukov* 26
- Non-One-Dimensional Optical Solitons and Ideal Fluid Dynamics  
*S. V. Sazonov* 31
- 

## Spectroscopy of Light Scattering

- Inverse TERS Effect in Methyl Hydroxyethyl Cellulose Layers  
*A. F. Bunkin, A. I. Loskutov, V. B. Oshurko, S. M. Pershin, and A. N. Fedorov* 37
- Bimodal Dependence of Light Scattering/Fluctuations on the Concentration of Aqueous Solutions  
*S. M. Pershin, A. F. Bunkin, M. Ya. Grishin, V. N. Lednev, A. N. Fedorov, and N. P. Palmina* 41
- 

## Microwave Dielectric Spectroscopy

- Temperature Transformation of Microwave Dielectric Spectra of Rochelle Salt in the Dynamic Conductance Model  
*G. I. Ovchinnikova, A. P. Eremeev, and I. Yu. Polyakova* 48
- 

## Acousto-Optics

- Photoelastic and Acousto-Optic Properties of the KDP Crystal with Application to Wide-Angle Acousto-Optic Tunable Filters  
*T. V. Yukhnevich and V. B. Voloshinov* 52
-

## **Materials for Optical Transducers**

Anisotropic Light Diffraction in a Biaxial Crystal of Alpha-Iodic Acid

*V. I. Balakshy and M. I. Kupreychik*

58

---

## **Theory of Semiconductor Lasers**

Harmonic and Intermodulation Distortions and Noise Associated with Two-Tone Modulation of High-Speed Semiconductor Lasers

*A. Bakry and M. Ahmed*

64

---

## **Ultrasonic Shear Waves**

The Use of the Verasonics Ultrasound System to Measure Shear Wave Velocities in CIRS Phantoms

*R. Sh. Khalitov, S. N. Gurbatov, and I. Yu. Demin*

73

---

## **Underwater Acoustics**

Direction Finding of Pulsed Signals from a Towed Pneumatic Source by an Antenna Composed of Vector-Scalar Modules

*G. N. Kuznetsov and A. F. Kurchanov*

77
