Vol. 22, No. 2, 2014

Distributed worldwide by Springer. *Physics of Wave Phenomena* ISSN 1541-308X.

Interaction of Laser Radiation with Matter

- Long-Term Variation in Nuclide Activities under Laser Ablation of Metallic Targets
in Aqueous Solutions of Uranium Salt
N. A. Kirichenko, A. V. Simakin, and G. A. Shafeyev 81
-

Nonlinear Laser Spectroscopy

- Four-Wave Mixing Rayleigh Scattering Spectroscopy of Binary Solutions
A. F. Bunkin, M. A. Davydov, and S. M. Pershin 91
-

Laser Space Monitoring

- Estimation of the Characteristics of a Promising Orbital Lidar for Space Debris
Monitoring
S. V. Garnov, A. V. Moiseeva, P. Ya. Nosatenko, V. N. Fomin, and A. B. Tserevitinov 95
-

Semiconductor Lasers

- Mode-Competition Noise Associated with Microwave Modulation of Multimode
Semiconductor Lasers
M. Ahmed and A. Bakry 103
-

Optical Signal Processing

- Interferometric Methods for Suppressing Additive Noise
V. M. Nikitin, V. A. Sautkin, V. N. Fomin, and A. B. Tserevitinov 111
- Spatial Polarimetry of Inhomogeneous Surfaces under Laser Illumination
V. M. Nikitin, V. N. Fomin, V. L. Egorov, and E. B. Sautkin 120
- Optimal Processing of Noisy Images in a Photodetector with Limited Dynamic Range
V. N. Fomin, V. M. Nikitin, E. B. Zhabkov, V. A. Sautkin, and E. K. Suyazova 125
-

Capillary Autovaves

- Dynamics of Roll Domains in a Rounded-Corner Cell
S. V. Kiyashko, V. O. Afenchenko, and A. V. Nazarovskii 132
-

Nonlinear Acoustics

Nonlinear Acoustic Wave Generation in a Three-Phase Seabed
A. B. Kukarkin, N. I. Pushkina, and Ya. M. Zhileikin

139

Hydroacoustics

Frequency Shifts Initiated by Surface Roughness
V. M. Kuz'kin, M. V. Kutsov, and S. A. Pereselkov

144

Seismoacoustics

Outlook for Passive Marine Seismic Exploration Using Infralow-Frequency Hydrophones
S. I. Kutakov and I. A. Maslov

150
