Vol. 23, No. 2, 2015

Distributed worldwide by Springer. *Physics of Wave Phenomena* ISSN 1541-308X.

Physics of Condensed Matter

- Distribution Corresponding to Classical Thermodynamics
V. P. Maslov 81
-

Nonlinear Optics

- Adiabatic Interaction between a Dark Soliton and a Cnoidal Wave with Orthogonal Circular Polarizations in an Isotropic Gyrotropic Nonlinear Medium
V. A. Makarov, V. M. Petnikova, K. V. Rudenko, and V. V. Shuvalov 96
-

Photonic Echo

- Investigation of Relaxation in Quantum Dot Ensembles in Thin Semiconductor Films by Photon-Echo Technique
I. I. Popov, N. S. Vashurin, S. E. Putilin, S. A. Stepanov, and N. I. Sushentsov 101
-

Optical Spectroscopy

- Dynamics of Macroscopic Fluctuations of Electrochemically Treated Water According to the Rayleigh Scattering Data
L. V. Belovolova, M. V. Glushkov, and S. F. Timashev 105
-

Magnetic Waves in Metamaterials

- Propagation of Nonlinear Pulses of Magnetostatic Waves in Coupled Magnonic Crystals
M. A. Morozova and O. V. Matveev 114
-

Waves in Plasma

- Two-Tone Ion-Acoustic Waves in Degenerate Quantum Plasma
A. E. Dubinov and I. N. Kitayev 122
-

Transformation and Ultrasonic Generation in Liquid

- Generation of Internal Waves in Fluids by Sound Beams
A. P. Brysev, V. G. Mikhalevich, and V. N. Streltsov 129
- Acoustic Phase Conjugation in a Three-Phase Medium
N. I. Pushkina 131
-

Ultrasonic Tomography

Reconstruction of the Blood Flow Velocity Vector As an Additional Mode of Ultrasonic Tomograph

V. A. Burov, O. V. Matveev, D. I. Zotov, and O. D. Remyantseva

135

Remote Sensing of Natural Media

Georadar Sensing from Terrestrial Surface and Shafts: Approaches to Evaluation of Rock Fracturing

R. V. Balabin, L. B. Volkovskaya, O. A. Gulevich, N. V. Krivosheev, G. A. Lyakhov, D. N. Musalev, A. E. Reznikov, R. Z. Safieva, and S. N. Semyonov

143

Method and Results of Estimating Acoustic Characteristics of Bottom-Sediment Upper Layers in the Shelf Region Using Seismic Exploration Instruments

A. I. Belov and G. N. Kuznetsov

154
