## Nonlinear Optical Spectroscopy

- Experimental Evidence of Transmutation of Hg into Au under Laser Exposure of Hg Nanodrops in D<sub>2</sub>O  
*G. A. Shafëev, F. Bozon-Verduraz, and M. Robert* 131
- 

## Laser Spectroscopy

- Control of Radiation Parameters of Pulse-Periodic Tunable Diode Lasers Based on Lead Salts with Double Heterostructure  
*E. V. Stepanov, Ya. Ya. Ponurovskii, and Yu. S. Bogdanov* 137
- Methods of Highly Sensitive Gas Analysis of Molecular Biomarkers in Study of Exhaled Air  
*E. V. Stepanov* 149
- 

## Interaction of Laser Radiation with Matter

- Study of Explosive Boiling of Transparent Liquid on Metal Substrate Exposed to Nanosecond Laser Pulses  
*S. N. Andreev, V. I. Vovchenko, and A. A. Samokhin* 182
- 

## Nonlinear Acoustic Spectroscopy

- Nonlinear Imaging of Isoechogenic Phantoms Using Phase Conjugation of the Second Acoustic Harmonic  
*L. Krutyansky, V. Preobrazhensky, Ph. Pernod, and O. Bou Matar* 186
- 

## Remote Sensing of Natural Media

- Experimental Validation of the Scenario of the Object Microstructure Determination Using a Two-Position Lidar System: a Screen with Random Transmittance Modulation  
*A. V. Bukharin* 191
- Water Acoustic Noises Caused by Air Transport  
*S. I. Kutakov and I. A. Maslov* 201
- 
-
