

Contents

Vol. 15, No. 4, 2007

Spectroscopy of Surface

- General Regularities of Interaction between Halogens and Surface of fcc Metals
B. V. Andryushechkin and K. N. Eltsov 207
-

Laser Spectroscopy

- Nanoparticle Formation During Laser Ablation of Solids in Liquids
A. V. Simakin, V. V. Voronov, and G. A. Shafeev 218
- Spectral Properties of Gaseous Biomarkers and Choice of the Optimal Analytical Line
at Interference of the Spectra of Detected Gases
E. V. Stepanov 241
-

Nonlinear Optics

- Frequency Doubling of Phase-Modulated Femtosecond Laser Pulses in Periodically Poled
and Chirped Nonlinear Crystals
D. B. Yusupov and A. S. Chirkin 263
-

Underwater Acoustics

- Effect of Absorbing Bottom on Angular Distribution of Surface Noise in Shallow Sea
V. M. Kuz'kin and V. D. Oppengeim 272
-

Remote Sensing of Natural Media

- Use of Aircraft Noise for Acoustic Monitoring of Shallow Water Areas
S. I. Kutakov and I. A. Maslov 280
-
