**Vol. 24, No. 1, 2021**

---

---

The Physical Nature of Plasticity <i>V. E. Egorushkin, V. E. Panin, and A. V. Panin</i>	1
Effect of Impact Time Parameters on the Dynamic Strength in Spall Fracture <i>N. V. Mikhailova and Yu. V. Petrov</i>	9
Molecular Dynamics Study of the Interface Effect on the Fracture of a Heterostructure under Uniaxial Tension <i>I. F. Golovnev, E. I. Golovneva, and V. M. Fomin</i>	14
Method of Images Solution for an Edge Dislocation and a Circular Cavity in Crystalline Solids <i>K. Nguyen and A. Mehrabian</i>	20
A Numerical Study of the Stress-Strain Behavior of Additively Manufactured Aluminum-Silicon Alloy at the Scale of Dendritic Structure <i>E. Dymnich, V. A. Romanova, R. R. Balokhonov, O. S. Zinovieva, and A. V. Zinoviev</i>	32
Numerical Analysis of Concrete Fracture under Shock Wave Loading <i>P. A. Radchenko, S. P. Batuev, and A. V. Radchenko</i>	40
Development of New Models for Tensile Modulus of Metal/Carbon Nanotubes Nanocomposites <i>Y. Zare and K. Y. Rhee</i>	46
Control of the Structure and Wear Resistance of a Carbon-Nitrogen Austenitic Steel Coating Produced by Electron Beam Cladding <i>V. E. Panin, N. A. Narkevich, V. G. Durakov, and I. A. Shulepov</i>	53
Effect of Deformation on Microstructure of 301L Stainless Steel <i>J. X. Li, D. C. Luan, Y. Li, C. M. Zuo, T. X. Deng, Y. Ren, and Z. Y. Wang</i>	61
The Effect of Graphene-Oxide Nanoplatelets on the High-Velocity Impact Response of Glass Laminate Aluminum Reinforced Epoxy <i>A. Heydari, H. Khoramishad, H. Alikhani, and F. Berto</i>	65
Very High Cycle Fatigue of D16T Aluminum Alloy <i>A. A. Shanyavskiy, A. D. Nikitin, and T. Palin-Luc</i>	77
Control of Seismic Activity in Tectonic Fault Zones Using Vibrations and Fluid Injection in Deep Wells <i>V. V. Ruzhich, A. G. Vakhromeev, E. A. Levina, S. A. Sverkunov, and E. V. Shilko</i>	85
Improving Flaw Detection through Integration of a Novel Eddy Current Probe with Fluxgate Magnetic Sensor <i>T. Tesfaye, M. S. Mohammed, and K. Ki-Seong</i>	98
FEM Analyses of Low Velocity Impact Response of Sandwich Composites with Nanoreinforced Polypropylene Core and Aluminum Face Sheets <i>M. Bagheri Tofighi and H. Biglari</i>	107
