Vol. 1, No. 3, 2008

Simultaneous English language translation of the journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Contemporary Problems of Ecology* ISSN 1995-4255.

| | |
|--|-----|
| Prospects of the Forestry Development in Siberia <i>V. A. Sokolov</i> | 289 |
| Carbon Deposition in Forests of the Ural Federal District <i>V. A. Usol'tsev, G. G. Terekhov, and O. V. Kanunnikova</i> | 295 |
| Fires and Pyrogenic Successions in the Forests of the South Baikal Region <i>M. A. Sofronov, A. V. Volokitina, and T. M. Sofronova</i> | 304 |
| Soil and Geobotanical Profiling in Phytocenotic Studies at Junctions of Taiga and Extrazonal Steppes on the Western Shore of Lake Baikal <i>A. P. Sizykh</i> | 310 |
| Original Data on the Diversity, Ecology, and Chemical Composition of Aquatic and Semiaquatic Lichens (Lichenes) of the Stony Littoral of Lake Baikal <i>N. N. Kulikova, A. N. Sutorin, S. M. Boiko, A. V. Lishtva, L. F. Paradina, E. V. Saibatalova, O. A. Timoshkin, T. G. Potemkina, A. A. Zavarzin, and I. V. Khanaev</i> | 316 |
| Assessment of Vegetation Cover by Lichen-Indication Methods (by the Example of the North of Central Siberia) <i>S. A. Pristyazhnyuk</i> | 322 |
| Microbiological Indication of River Ecosystem Conditions at the Oil Fields in the Middle Ob' Area <i>E. A. Shornikova</i> | 328 |
| Chironomids (Diptera: Chironomidae) in Lakes of Central Yakutia and Their Indicative Potential for Paleoclimatic Research <i>L. B. Nazarova, L. A. Pestryakova, L. A. Ushnitskaya, and H.-W. Hubberten</i> | 335 |
| Seasonal Oxidoreductase Activity in Reclaimed Peat Soils in Connection with Hydrothermal Conditions of Environment <i>T. T. Efremova and T. M. Ovchinnikova</i> | 346 |
| GIS as a Tool for Identification of Forest Water Protection Areas <i>M. A. Korets and A. A. Onuchin</i> | 353 |
| Effect of UV Radiation Transmitted through Light-Correcting Films on the Enzymatic Activity of Oil-Polluted Soil <i>L. I. Svarovskaya, D. A. Filatov, and L. K. Altunina</i> | 356 |
| Accumulation of Heavy Metals in the Soil-Plant System Under the Application of Increasing Doses of Sewage Sediments <i>S. G. Doroshkevich and A. B. Badmaev</i> | 361 |
| The Influence of Mobile Forms of Heavy Metals on the Microbiological Activity of Soil at Gold Placers (Exemplified by the Dzhaldinda River Valley, Amur Region) <i>O. A. Sorokina, L. M. Pavlova, and V. I. Kiselev</i> | 367 |
| Pollution of the Amur River with Anthropogenic and Natural Organic Substances <i>V. L. Rapoport and L. M. Kondrat'eva</i> | 377 |
| Diversity and Anatomic Structure of Ectomycorrhizas of <i>Picea obovata</i> in the Altitudinal Gradient (the Denezhkin Kamen' Mountain Ridge, Central Urals) <i>D. V. Veselkin</i> | 387 |
| Monitoring of Pollution with Fluorine in the Stolby Reserve <i>R. A. Kolovskii and M. A. Buchel'nikov</i> | 394 |
