Spatial-Typological Differentiation of Ecosystems of the West Siberian Plain. Communication III: Terrestrial Invertebrates <i>M. G. Sergeev, B. R. Striganova, V. G. Mordkovich, V. V. Molodtsov, I. N. Bogomolova, and O. N. Nikolaeva</i>	347
Spatial-Typological Differentiation of Ecosystems of the West Siberian Plain. Communication IV: Terrestrial Vertebrates <i>Yu. S. Ravkin, I. N. Bogomolova, and S. V. Chesnokova</i>	355
Abnormalities of Embryonal Development of Vertebrates under the Conditions of Technogenic Environmental Pollution <i>N. S. Moskvitina, V. N. Kuranova, and S. V. Savel'ev</i>	366
Comparative Sensitivity of the Several Zooplankton Species (Cladocera, Copepoda) to Sumicidine-Alpha Insecticide <i>Yu. A. Noskov</i>	373
Spatial-Typological Organization of the Soil Gamasina Mite (Acari, Mesostigmata) Community of the Northeastern Altai. Communication I <i>I. I. Marchenko</i>	379
Spatial Heterogeneity of a Ground Beetle (Coleoptera, Carabidae) Population along a Forest-Steppe Transect: Local Level of Consideration <i>I. I. Lyubechanskii and A.N. Bupalov</i>	388
Cartographic Representation of the Distribution of Black Grouse (<i>Lyrurus tetrix</i> L.) and Hazel Grouse (<i>Tetrastes bonasia</i> L.) in the West Siberian Plain <i>Yu. S. Ravkin and I. P. Kokorina</i>	396
Diet of Red-Breasted Flycatcher and Siberian Tit Nestlings in Central Yakutia <i>A. N. Sekov and A. I. Averenskii</i>	401
Differentiation of Young Black-Faced Buntings from the Primor'e Population in the Fall Season Based on Remex Molt Analysis <i>E. A. Medvedeva</i>	407
New Data on the Distribution of Hantavirus in Rodent Populations in Siberia <i>S. A. Abramov, L. N. Yashina, T. A. Dupal, N. I. Zdanovskaya, E. V. Protopopova, A. A. Pozdnyakov, A. V. Krivopalov, and D. V. Petrovsky</i>	410
Correlation between Biodiversity Indices of Small Mammals and Their Helminths in West Siberian Ecosystems <i>O. N. Zhigileva</i>	416
Ecology of <i>Hepaticola hepatica</i> Infection in Rodents in Southern West Siberia <i>A. I. Chechulin[†], S. V. Karpenko, and V. V. Panov</i>	423
Shrew Communities in Eastern Transbaikalia <i>Yu. A. Bazhenov</i>	428
Comparative Characterization of Mouse-Like Rodent Communities in Altitudinal Belts of the Kuznetsk Alatau <i>V. V. Vinogradov</i>	433
Inherited Phenotypic Changes in the Population Dynamics of Water Vole (<i>Arvicola terrestris</i> L.) in Northern Baraba <i>V. Yu. Kovaleva, V. M. Efimov, Yu. K. Galaktionov, and G. G. Nazarova</i>	440

Retrospective Evaluation and Modern State of the Moose (<i>Alces alces</i> L.) Population in West Siberia: Ecological and Molecular-Genetic Aspects	
<i>N. S. Moskvitina, O. V. Nemoikina, O. Yu. Tyuten'kov, and M. V. Kholodova</i>	444
Long-Term Dynamics and Demographic Features of the Migration of <i>Alopex lagopus</i> Linneaus in East European Tundras	
<i>V. V. Anufriev</i>	449
Size Structure of Introduced and Native Populations of Sable in Yakutia	
<i>V. G. Monakhov, M. N. Ranyuk, and V. M. Safronov</i>	451
