Simultaneous English language translation of the journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Contemporary Problems of Ecology* ISSN 1995-4255.

Characteristics of Opisthorchiasis Foci in Southern West Siberia <i>S. V. Karpenko, A. I. Chechulin, N. I. Yurlova, E. A. Serbina, S. N. Vodyanitskaya, A. V. Krivopalov, and K. P. Fedorov</i>	517
Mechanisms of Antioxidant System Activation in Freshwater Amphipoda: II. Baikal Littoral <i>Eulimnogammarus cyaneus</i> (Dyb.) <i>M. A. Timofeev</i>	522
State of the Population of Myriapodes <i>Monotarsobius curtipes</i> in the Impact Area of Aluminum Plant <i>I. V. Zenkova and D. A. Petrashova</i>	528
Composition and Dynamics of Communities of Orthopteran Insects (Orthoptera) in Southwestern Tajikistan. II. Hillside Communities <i>A. A. Pokivailov</i>	536
Withdrawn Food Rate for Larvae of Siberian Moth on Conifers of Siberia <i>N. I. Kirichenko and Yu. N. Baranchikov</i>	543
The Structure of Soil Mesopopulation Bearing on Climatic Changes and Anthropogenic Impact on Geosystems at the Taiga-Steppe Contact in the Baikal Region <i>E. P. Bessolitsyna and I. E. Trofimova</i>	549
Spatial and Typological Arrangement of the Population of Invertebrates in the Grass Cover of the Northeastern Altai <i>S. M. Ponomareva, P. Yu. Malkov, V. V. Dubatolov, S. E. Chernyshev, A. V. Barkalov, A. A. Legalov, and S. V. Chesnokov</i>	555
Potential Contacts of Waterbirds of Northeastern Asia with Chemical Pollutants <i>V. G. Degtyarev</i>	564
Cartographic Analysis of the Population of Amphibians, Reptiles, and Birds of the West Siberian Plain and Altai <i>Yu. S. Ravkin, S. M. Tsybulin, S. G. Livanov, K. V. Toropov, V. N. Kuranova, V. P. Starikov, and S. V. Chesnokova</i>	568
Reproductive Parameters of Great and Azure Tits in Baraba Forest-Steppe (Southern West Siberia) <i>V. M. Chernyshov</i>	574
Contact Zones between Chromosome Races of the Common Shrew <i>Sorex araneus</i> L. (Insectivora, Mammalia) at the Margins of the Veps Stage of the Valdai Ice Sheet <i>Yu. M. Borisov, A. I. Kozlovsky, A. E. Balakirev, T. B. Demidova, S. Yu. Irchin, V. M. Malygin, N. M. Okulova, S. G. Potapov, A. N. Shchipanov, and V. N. Orlov</i>	583
Hybrid Zones between Chromosome Races of the Common Shrew in West Siberia <i>A. V. Polyakov</i>	590
Study of Insectivorous Mammals in North Vietnam <i>A. V. Abramov, A. V. Shchinov, and V. V. Rozhnov</i>	593
Rapid Method for Estimating Local Biodiversity of a Community of Small Mammals <i>N. A. Shchipanov, Yu. N. Litvinov, and B. I. Sheftel</i>	596
Analysis of Biodiversity Parameters of Shrew Communities of the Altai Mountains <i>Yu. N. Litvinov and L. V. Pozhidaeva</i>	603

Number and Distribution of Dominant Species of Common Shrews of <i>Sorex</i> Genus across Kuznetsk Alatau Ridge <i>V. V. Vinogradov</i>	608
Zonal-Landscape Distribution of Insectivorous Mammals (Insectivora, Mammalia) of the Upper Ob Region <i>L. G. Vartapetov, V. V. Panov, S. M. Tsybulin, and I. N. Bogomolova</i>	611
Quantitative Estimation of Population Numbers of Shrews (Mammalia, Insectivora) after Wintering <i>A. A. Kalinin</i>	619
