

Contents

Volume 232, 2001

Preface	1
Some Words about Myself <i>S. M. Nikol'skii</i>	2
S.M. Nikol'skii's Works on the Theory of Approximation of Functions <i>S. A. Telyakovskii</i>	13
S.M. Nikol'skii's Works on the Theory of Function Spaces and Its Applications <i>O. V. Besov</i>	19
The List of Scientific Works of S.M. Nikol'skii	25
Phillips-Type Theorems for Nikol'skii and Certain Other Function Spaces <i>S. S. Ajiev</i>	27
Polynomials of Least Deviation from Zero and Chebyshev-Type Cubature Formulas <i>N. N. Andreev and V. A. Yudin</i>	39
Norm-Generating Pseudodifferential Operators in the Spaces $W_p^s(\mathbb{R}^n)$ <i>K. O. Besov</i>	52
On the Compactness of Embeddings of Weighted Sobolev Spaces on a Domain with Irregular Boundary <i>O. V. Besov</i>	66
A Method for Estimating the L_1 Norm of an Exponential Sum Based on Arithmetic Properties of the Spectrum <i>S. V. Bochkarev</i>	88
On the Solvability, in the Class of Polynomials, of the Dirichlet Problem for the Laplace Equation on an Arbitrary Polygon <i>E. A. Volkov</i>	96
Sharp Estimates for the Norms of Hardy-Type Operators on the Cones of Quasimonotone Functions <i>M. L. Goldman</i>	109
Boundary Control of Spherically Symmetric Oscillations of a Three-Dimensional Ball <i>V. A. Il'in</i>	138
On a Procedure of Projective Fiberings of Functionals on Banach Spaces <i>Ya. Sh. Il'yasov</i>	150
Boundedness and Compactness Criteria for a Generalized Truncated Potential <i>V. M. Kokilashvili and A. N. Meskhi</i>	157
Best Approximation and Symmetric Decreasing Rearrangements of Functions <i>N. P. Korneichuk</i>	172
Asymptotics of Solutions to Differential Equations near Singular Points <i>L. D. Kudryavtsev</i>	187
Sharpness of Sobolev Inequalities for a Class of Irregular Domains <i>D. A. Labutin</i>	211

On the Absence of Solutions for a Class of Singular Semilinear Differential Inequalities <i>G. G. Laptev</i>	216
On Convergence of Weak Greedy Algorithms <i>E. D. Livshitz and V. N. Temlyakov</i>	229
Nonexistence of Weak Solutions for Some Degenerate and Singular Hyperbolic Problems on $\mathbb{R}_+^{n+1}$ <i>E. Mitidieri and S. I. Pohozaev</i>	240
Approximation of a Class of Singular Integrals by Algebraic Polynomials with Regard to the Location of a Point on an Interval <i>V. P. Motornyi</i>	260
More on a Boundary Value Problem with Polynomials <i>S. M. Nikol'skii</i>	278
Direct and Inverse Theorems of Approximation Theory for the m th Generalized Modulus of Smoothness <i>M. K. Potapov</i>	281
On Integral Operators with Variable Limits of Integration <i>V. D. Stepanov and E. P. Ushakova</i>	290
On the Uniform Convergence of the Fourier Series of Functions of Bounded Variation <i>S. A. Telyakovskii</i>	310
Limit Investigation at Infinity of the Sobolev–Wiener Function Classes in Tube Domains <i>S. V. Uspenskii and E. N. Vasil'eva</i>	319
