Volume 233, 2001

Extremal Problems for Differential Inclusions with State Constraints <i>S. M. Aseev</i>	1
The Pontryagin Maximum Principle and Transversality Conditions for an Optimal Control Problem with Infinite Time Interval <i>S. M. Aseev, A. V. Kryazhimskii, and A. M. Tarasyev</i>	64
Synthesis of Optimal Trajectories That Defines the Reeb Foliation <i>M. I. Zelikin</i>	81
Asymptotics of Optimal Synthesis for One Class of Extremal Problems <i>M. I. Zelikin, L. F. Zelikina, and R. Hildebrand</i>	87
The Topological Structure of the Phase Portrait of a Typical Fiber of Optimal Synthesis for Chattering Problems <i>M. I. Zelikin, N. B. Melnikov, and R. Hildebrand</i>	116
The Buffer Phenomenon in an <i>RCLG</i> Oscillator: Theoretical Analysis and Experimental Results <i>A. Yu. Kolesov and N. Kh. Rozov</i>	143
