Hölder Continuity and Harnack's Inequality for $p(x)$ -Harmonic Functions <i>Yu. A. Alkhutov and M. D. Surnachev</i>	1
Derivation Algebra in Noncommutative Group Algebras <i>A. A. Arutyunov</i>	22
Coincidence Points and Generalized Coincidence Points of Two Set-Valued Mappings <i>A. V. Arutyunov, E. S. Zhukovskiy, and S. E. Zhukovskiy</i>	35
Knot Invariants in Geodesic Flows <i>P. M. Akhmet'ev</i>	42
On Sufficient Optimality Conditions for Infinite Horizon Optimal Control Problems <i>Anton O. Belyakov</i>	56
Singularities of Multivalued Solutions of Quasilinear Hyperbolic Systems <i>I. A. Bogaevsky and D. V. Tunitsky</i>	67
Sufficient Optimality Conditions for Hybrid Systems of Variable Dimension <i>A. S. Bortakovskii</i>	79
Extraction of Several Harmonics from Trigonometric Polynomials. Fejér-Type Inequalities <i>D. G. Vasilchenkova and V. I. Danchenko</i>	92
On Some Sufficient Hyperbolicity Conditions <i>S. D. Glyzin, A. Yu. Kolesov, and N. Kh. Rozov</i>	107
Three Types of Attractors and Mixed Dynamics of Nonholonomic Models of Rigid Body Motion <i>S. V. Gonchenko, A. S. Gonchenko, and A. O. Kazakov</i>	125
Scenario of a Simple Transition from a Structurally Stable 3-Diffeomorphism with a Two-Dimensional Expanding Attractor to a DA Diffeomorphism <i>V. Z. Grines, E. V. Kruglov, and O. V. Pochinka</i>	141
Fredholm Property of Integral Operators with Homogeneous Kernels of Compact Type in the L_2 Space on the Heisenberg Group <i>V. V. Denisenko and V. M. Deundyak</i>	155
Stabilization of Statistical Solutions for an Infinite Inhomogeneous Chain of Harmonic Oscillators <i>T. V. Dudnikova</i>	168
Qualitative Properties of a Duffing System with Polynomial Nonlinearity <i>A. N. Kanatnikov and A. P. Krishchenko</i>	184

Linear Pfaffian Systems and Classical Solutions of Triangular Schlesinger Equations <i>V. P. Leksin</i>	196
Tracking the Solution of a Linear Parabolic Equation Using Feedback Laws <i>V. I. Maksimov</i>	208
On the Structure of Solutions to a Model System That Is Nonstrictly Hyperbolic in the Sense of Petrovskii <i>V. V. Palin</i>	218
Multiple Mixing with Respect to Noncoinciding Sets <i>S. V. Tikhonov</i>	229
On the Solvability of a Class of Nonlinear Hammerstein–Stieltjes Integral Equations on the Whole Line <i>Kh. A. Khachatryan and H. S. Petrosyan</i>	238
Localized Asymptotic Solution of a Variable-Velocity Wave Equation on the Simplest Decorated Graph <i>A. V. Tsvetkova and A. I. Shafarevich</i>	250
