Vol. 289, Suppl. 1, 2015

Ivan Ivanovich Eremin

*V. I. Berdyshev, V. V. Vasin, S. V. Matveev, A. A. Makhnev, Yu. N. Subbotin,
N. N. Subbotina, V. N. Ushakov, M. Yu. Khachai, and A. G. Chentsov* S1

Optimal Control with Connected Initial and Terminal Conditions

A. S. Antipin and E. V. Khoroshilova S9

Finite Groups All of Whose 2-Maximal Subgroups Are π -Decomposable

V. A. Belonogov S26

On Automorphisms of a Generalized Hexagon of Order (t, t)

I. N. Belousov S42

On the Problem of Tracking a Moving Object by Observers

V. I. Berdyshev S54

Nonabelian Composition Factors of a Finite Group with Arithmetic Constraints
on Nonsolvable Maximal Subgroups

E. N. Demina and N. V. Maslova S64

Probabilistic Analysis of an Approximation Algorithm for the m -Peripatetic Salesman
Problem on Random Instances Unbounded from Above

E. Kh. Gimadi, A. M. Istomin, I. A. Rykov, and O. Yu. Tsidulko S77

Efficient Algorithms with Performance Guarantees for Some Problems of Finding Several
Cliques in a Complete Undirected Weighted Graph

E. Kh. Gimadi, A. V. Kel'manov, A. V. Pyatkin, and M. Yu. Khachai S88

Regularization and Normal Solutions of Systems of Linear Equations and Inequalities

A. I. Golikov and Yu. G. Evtushenko S102

A Polynomial-Time Approximation Scheme for the Euclidean Problem on a Cycle Cover
of a Graph

M. Yu. Khachai and E. D. Neznakhina S111

Lower Bounds for the Number of Hyperplanes Separating Two Finite Sets of Points

K. S. Kobylkin S126

Recognition of the Groups $E_7(2)$ and $E_7(3)$ by Prime Graph

A. S. Kondrat'ev S139

Stabilizers of Vertices of Graphs with Primitive Automorphism Groups and a Strong
Version of the Sims Conjecture. I

A. S. Kondrat'ev and V. I. Trofimov S146

On Chief Factors of Parabolic Maximal Subgroups of the Group ${}^2E_6(q^2)$

V. V. Korableva S156

On the Structure of Ultrafilters and Properties Related to Convergence in Topological
Spaces

E. G. Pytkeev and A. G. Chentsov S164

On the Application of the Residual Method for the Correction of Inconsistent Problems of Convex Programming	S182
<i>V. D. Skarin</i>	
On Lebesgue Constants of Local Parabolic Splines	S192
<i>E. V. Strelkova and V. T. Shevaldin</i>	
Some Remarks on Symmetrical Extensions of Graphs	S199
<i>V. I. Trofimov</i>	
On Automorphisms of a Distance-Regular Graph with Intersection Array $\{35, 32, 1; 1, 4, 35\}$	S209
<i>L. Yu. Tsioukina</i>	
Separate Reconstruction of Solution Components with Singularities of Various Types for Linear Operator Equations of the First Kind	S216
<i>V. V. Vasin and E. O. Soboleva</i>	
Cusped Hyperbolic 3-Manifolds of Complexity 10 Having Maximum Volume	S227
<i>A. Yu. Vesnin, V. V. Tarkaev, and E. A. Fominykh</i>	
Automorphisms of Higman Graphs with $\mu = 6$	S240
<i>N. D. Zyulyarkina and A. A. Makhnev</i>
