Contents

Vol. 72, No. 4, 1999

Simultaneous English language translation of the journal is available from МАИК "Наука/Interperiodica" (Russia). Distributed worldwide by Kluwer Academic/Plenum Publishers. *Russian Journal of Applied Chemistry* ISSN 1070-4272

Reviews

Activated Polymeric Esters as Highly Reactive Agents for Modification of Biologically Active Substances
O. V. Nazarova and E. F. Panarin 549

Inorganic Synthesis and Industrial Inorganic Chemistry

Influence of B_2O_3 on Phase Formation in the $CaO–Al_2O_3–SiO_2$ System
S. A. Petrov, G. A. Mikirticheva, V. I. Shitova, and R. G. Grebenshchikov 562

Low-Temperature Methods for Synthesis of Aluminomagnesium Spinel and Effect of Yttrium Oxide on Its Sintering
L. V. Morozova, T. I. Panova, and A. E. Lapshin 567

Reaction of Bismuth(III) Oxocarbonate with Sodium Hydroxide Solutions
Yu. M. Yukhin, L. I. Afonina, and L. E. Danilova 572

Complexation of Iridium(III) with Germanium(II) Compounds in Aqueous Solutions of Hydrobromic Acid
P. G. Antonov, I. A. Agapov, and D. S. Manasevich 577

Effect of Surface-Active Modifying Agents (Aliphatic Amines and Their Salts) on Physicochemical Properties of Granulated Potassium Fertilizers
E. F. Korshuk, L. V. Dikhtievskaya, O. I. Kirilenko, T. N. Potkina, and F. F. Mozheiko 581

Physicochemical Studies of Systems and Processes

A Resistometric Study of the Kinetics of Copper and Gold Dissolution in the System $(CH_3)_2SO–HBr$
D. A. Osipchuk and G. A. Nifontova 586

Analysis of Conditions of Cadmium Sulfide Precipitation from Aqueous Solutions with Sodium Thiosulfate
G. A. Kitaev and A. A. Uritskaya 592

Solubility in the System $C(CH_2OH)_4–HCOONa–HCHO–H_2O$
S. Kh. Zagidullin, S. F. Kudryashov, D. V. Shadrin, M. Safarik, and O. S. Kudryashova 596

Sorption and Ion-Exchange Processes

Complexation of Pt(II) and Pt(IV) in Sorption of Chloroplatinate Ions by Nitrogen-containing Fibrous Sorbent GLIPAN-A
S. A. Simanova, T. V. Kuznetsova, A. N. Belyaev, O. V. Knyaz'kov, and L. V. Konovalov 603

Sorption of Noble Metal Ions by Organosilicon Polymer Based on *S*-Triethoxysilylethyl Derivatives of Thioglycolic Acid
Yu. N. Pozhidaev, O. Yu. Raspopina, N. N. Vlasova, and M. G. Voronkov 610

Applied Electrochemistry and Corrosion Protection of Metals

A Study of Electrode Processes on Platinum and Carbon Materials in Concentrated Nitric Acid
A. V. Yakovlev, A. I. Finaenov, L. E. Nikitina, and S. P. Apostolov 613

Electrodeposition of Nickel onto the Surface of Cadmium Oxide Electrode
M. M. Burashnikova and I. A. Kazarinov 618
Sulfate Complexes of Rhodium(III) in Electrodeposition Processes
L. B. Khar'kova, V. I. Pekhn'o, and S. V. Volkov 621
Electrolytic Properties of Cesium Trichlorostannate(II)
N. A. Mel'nikova, O. V. Glumov, A. V. Glumov, and I. V. Murin 624
Contact Precipitation of Cadmium from Spent Industrial Solutions
A. F. Dresvyannikov, V. F. Sopin, and M. G. Khairullin 627
Effect of Cathodic Treatment in Acidic and Alkaline Solutions on Properties of Fibrous Carbon Materials
V. K. Varentsov and V. I. Varentsova 631
Effect of Anodic Polarization in Acidic and Alkaline Solutions on Properties of Fibrous Carbon Materials
V. K. Varentsov and V. I. Varentsova 635

Catalysis

Effect of Basic Process Parameters on Carbon Deposition in Ethylene Glycol Oxidation into Glyoxal on Copper Catalyst
L. A. Arkatova, L. N. Kurina, O. V. Vodyankina, and A. G. Kozhomin 639
Catalytic Activity of Polyfluorinated Copper(II) β-Diketonates in Urethane Formation
M. S. Fedoseev, V. I. Saloutin, and T. S. Sheshukova 642
Influence of Treatment with Sodium Hydroxide on Zeolite Properties in Conversion of Lower Alkanes
A. V. Vosmerikov 645
Synthesis of Methyl *tert*-Butyl Ether in the Presence of FIBAN K-1 Fibrous Sulfonic Cation Exchanger
B. Kh. Cherches, A. A. Shunkevich, T. N. Belotserkovskaya, and Yu. G. Egiazarov 649
Stabilization of Hydrogen Peroxide in Bleaching of Textile Materials
V. N. Galashina, S. M. Gubina, and M. V. Klyuev 653

Environmental Problems of Chemistry and Technology

Flow-Injection Analysis with a Multisensor System Used for Measuring Heavy Metal Ion Content in Incinerating Plant Smokes
J. Mortensen, A. V. Legin, A. V. Ipatov, A. M. Rudnitskaya, Yu. G. Vlasov, and K. Hewler 658
Absorption of Acrolein by Calcium Hydroxide Suspension
A. A. Mukhutdinov, V. S. Tsivunin, and G. I. Samoilov 662
Reaction of 2,6-Di-*tert*-butylphenol with Sulfur in Dimethylformamide in the Presence of Oxygen
S. V. Bukharov, L. V. Konoshenko, S. E. Solov'eva, V. V. Syakaev, Yu. V. Chugunov, and Ya. D. Samuilov 667

Processes and Equipment of Chemical Industry

Theoretical Evaluation of Interface Resistance in Hydrogen Sulfide Absorption by Water
S. V. Aniskin and I. O. Protod'yakonov 670
Screw Extractor for Solid Materials (Hydrodynamic Studies and Scaling)
E. B. Simeonov and A. D. Minchev 675

Organic Synthesis and Industrial Organic Chemistry

Preparation and Properties of *N*-Alkyl Derivatives of 8-Hydroxyquinoline
V. I. Kuz'min, V. N. Kuz'mina, and L. Shcherbakova 679

Effect of Thermolysis on Inhibiting Efficiency of Organophosphonates toward Calcium Sulfate Crystallization
B. N. Driker and A. L. Van'kov 685
Continuous Reaction of Ethylmagnesium Chloride (*in situ*) with Bottoms of Distillation of Methylchlorosilanes
B. A. Klokov 689
Polyfunctional and Polyradical Surfactants
A. A. Abramzon 693

Macromolecular Chemistry and Polymeric Materials

Synthesis and Antiradical Activity of Conjugates of Dextran and β-(4-Hydroxy-3,5-di-*tert*-butylphenyl)propionic Acid
D. V. Aref'ev, N. S. Domnina, E. A. Komarova, G. V. Aref'eva, E. N. Rakhmatullina, and A. Yu. Bilibin 697
^{1}H NMR Study of Distribution of Functional Groups in Carboxymethyl Dextran
V. B. Sokolov, K. A. Krasnov, I. Yu. Matyushichev, and B. V. Passet 701
Effect of Aqueous Solution of Biuret, Dimethyl Sulfoxide, and Acetamide on Thermodynamic Properties of Cellulose
I. I. Osovskaya and G. M. Poltoratskii 704
Influence of the Nature of Solvent on Viscous Properties of Cellulose Ether–Based Polymer Mixtures
O. V. Alekseeva, O. V. Rozhkova, and A. N. Prusov 707
Principles for Selection of Initiators for Polymerization of Ethylene in Autoclave Reactors
S. S. Ivanchev and Yu. N. Kondrat'ev 711

Brief Communications

Electrodeposition of Metallic Manganese with the Use of Manganese Carbonate
Yu. D. Gamburg 716
Electrical Conductivity of Composite Salt Glasses of the System $KHSO_4$–KH_2PO_4–SiO_2
G. M. Zagorovskii, V. D. Prisyazhnyi, G. P. Prikhod'ko, V. M. Ogenko, and A. A. Kramarenko 718
Anodic Refining of Lead in Hydroxide Melt
A. G. Morachevskii, Z. I. Vaisgant, and V. I. Mal'tsev 721
Purification of Exhaust Gases of Welding on Block Catalysts of Cellular Structure
O. A. Onorin, A. M. Khanov, A. A. Fedorov, and E. V. Matygullina 723
Effect of Impurities Contained in Raw Material on Oxidative Dimerization of Methane
S. I. Galanov, M. Yu. Smirnov, and L. N. Kurina 725
Stability of Caprolactam in Its Transportation in Liquid State
N. P. Gankov and I. P. Penchev 727

History of Chemistry and Chemical Technology

Boris Nikolaevich Menshutkin (To 125th Birthday Anniversary)
A. G. Morachevskii 729

Book Reivews

Senchenkova, E.M., *M.S. Tsvet sozdatel' khromatografii* (M.S. Tsvet—Creator of Chromatography), Moscow: Yanus-K, 1997, 440 p.
