Contents

Vol. 72, No. 7, 1999

Simultaneous English language translation of the journal is available from МАИК "Наука/Interperiodica" (Russia). Distributed worldwide by Kluwer Academic/Plenum Publishers. *Russian Journal of Applied Chemistry* ISSN 1070-4272

Reviews

Magnetic Properties of Chalcogenide Glasses
L. N. Blinov 1107

Inorganic Synthesis and Industrial Inorganic Chemistry

Effect of Microwave Field on the Behavior of Iridium(III,III,IV) Sulfate Complex in Hydrochloric Acid and Chloride Aqueous Solutions
A. V. Buslaev, N. M. Kuz'min, T. M. Buslaeva, and V. V. Kravchenko 1116

Chemical Equivalents of Glasses of the Ge–Se and Ge–Te Systems with Respect to Solutions of Oxidizing Agents and Alkalis
V. A. Funtikov 1120

Formation of Mullite Phase in Oxide Mixtures Prepared from SiO_2 Sols and Aluminum Salts
I. L. Kazakova, V. V. Vol'khin, P. Pongratz, and E. Halfaks 1126

Removal of Impurities from Monolithic Silica Gel Prepared by Organic Sol–Gel Method
N. N. Khimich, L. A. Koptelova, and S. V. Stolyar 1131

Physicochemical Studies of Systems and Processes

Calculation of Phase Equilibria in the $NaF–Na_2SO_4–NaCl–H_2O$ System at 25°C
A. M. Kalinkin 1135

Liquid–Vapor Equilibrium and Volume Properties of the Liquid Phase in the γ-Butyrolactone–Carbon Dioxide System at Elevated Pressures
V. G. Matvienko and N. L. Yarym-Agaev 1139

Liquid–Vapor Phase Equilibria in Subsystems Formed by Components of the Reaction Mixture in Production of Benzoic Acid
O. M. Krut'ko, L. V. Polyakova, L. F. Komarova, and O. Yu. Sartakova 1144

Effect of Hydrazinium Monoperchlorate on Thermal Decomposition of Hydroxylammonium Perchlorate
G. N. Nechiporenko, G. P. Dolganova, D. P. Lempert, and M. V. Makhonina 1148

Sorption and Ion-Exchange Processes

Adsorption Power of Metal Oxide Gas-Sensitive Materials
L. F. Ikonnikova and O. P. Klimentenko 1152

Specific Features of Sorption of Osmium Ionic Forms in Alkali Chromate Pulps
G. V. Petrov, T. N. Greiver, D. V. Volkov, and T. V. Vergizova 1156

Calculation of Extraction of Valine from Aqueous-Salt Media with Liquid Sulfonic Cation Exchanger
V. S. Soldatov, Z. I. Kuvaeva, V. A. Bychkova, and L. A. Vodop'yanova 1160

Applied Electrochemistry and Corrosion Protection of Metals

Electrolytic Recovery of Indium from Concentrated Sulfate Solution
A. I. Maslii, A. G. Belobaba, and A. A. Vais 1165

Anodic Behavior of Ni–Ru Alloy in Sulfate–Sulfuric Acid Solutions
A. D. Timoshin, S. A. Simanova, and V. I. Bashmakov 1170

Optimization of Metal Electrodeposition on Cylindrical Highly Porous Electrodes
V. V. Kamelin, V. N. Antsiferov, and V. I. Kichigin 1175

Use of Electrodialysis in Production of Tuberculin
A. A. Konarev, V. M. Bezgin, N. S. Shevyrev, V. E. Kozlov, L. D. Nichveeva, and E. N. Solodov 1179

Monitoring of Corrosion of Metal-Ceramic Bases of Nickel Oxide Electrodes in Hermetically Sealed Nickel–Cadmium Batteries
V. V. Ten'kovtsev, I. V. Morozova, L. S. Nadezhina, and N. V. Ivanova 1183

Some Properties of Thin Niobium Carbide Films Obtained on Carbon Steels from Salt Melts
S. A. Kuznetsov 1187

Catalysis

Photocatalytic Properties of Cadmium Sulfide and Oxide in Oxidation of Methanol to Formaldehyde
K. Yu. Kolmakov and V. N. Pak 1192

Catalytic Decomposition of Nitrogen Oxides
Syu Yunlun, A. S. Savenkov, and M. A. Sibirtseva 1196

Picolinic and Isonicotinic Acid Nitriles: Synthesis and Some Aspects of Practical Use
L. K. Glubokovskikh, T. P. Mikhailovskaya, and B. V. Suvorov 1200

Sorption-Catalytic Purification of Gases To Remove Epichlorohydrin on Chromium Oxide and Cobalt Chromite Catalysts
V. M. Vlasenko, V. L. Chernobrivets, Ya. P. Kurilets, and L. V. Feshchenko 1204

Environmental Problems of Chemistry and Technology

Removal of 1,1-Dimethylhydrazine form Aqueous Solutions by Catalytic Oxidation with Hydrogen Peroxide
O. P. Pestunova, G. L. Elizarova, and V. N. Parmon 1209

Decomposition of Nitrogen-containing Substances in Wastewater by Electron Beam Irradiation
N. N. Kundo, V. A. Ivanchenko, N. K. Kuksanov, S. E. Petrov, G. I. Anisiforov, N. N. Boldyreva, and A. V. Ivanchenko 1214

Features of Purification of Wash Waters Formed in Zinc Plating from Ammonium Chloride Electrolyte and Utilization of Their Components
S. V. Plokhov, S. N. Vinogradov, D. A. Ershov, and G. L. Gol'denberg 1217

Synthesis and Properties of Dialkyl Peroxydicarbonates Based on Fractions of Fatty Alcohols
V. A. Fomin 1221

Oxidation of Sodium Rongalite with Atmospheric Oxygen in Weakly Alkaline Solutions
S. A. Koksharov, G. V. Chistyakova, O. N. Murav'ev, and S. V. Makarov 1225

Macromolecular Chemistry and Polymeric Materials

Reactions of Dextran Polyaldehyde with Heterocyclic Compounds
A. A. Iozep, O. B. Suvorova, A. V. Lebed'ko, and B. V. Passet 1229

Synthesis of 4-(Meth)acrylamido-4-methylsulfolane-3-sulfonic Acid
S. A. Kazakov, O. A. Kazantsev, K. V. Shirshin, and S. M. Danov 1233

Oligomerization of Glutaraldehyde in the Course of Its Condensation with Glycine
N. P. Kuznetsova, R. N. Mishaeva, and L. R. Gudkin 1236

Kinetics of Copolymerization of Acrylamide with Sodium 2-Acrylamido-2-methylpropanesulfonate in Concentrated Aqueous Solutions
V. F. Kurenkov, M. R. Khairullin, and A. R. Utikeeva 1242

Electrical Conductivity and Strength Properties of Polymeric Composites Based on Oligomeric Resins Filled with Industrial Carbon and Graphite
Yu. N. Anisimov, O. B. Grekhova, and A. Yu. Anisimov 1247

Comparative Thermal Analysis of Chitins of Various Origins
A. F. Nikolaev, E. S. Bystrova, S. I. Ganicheva, E. B. L'vova, V. A. Petrova, and L. A. Nud'ga 1251

Coagulating Agent Based on Tetraethylammonium Bromide in Production of Emulsion Butadiene–Styrene Rubbers
S. S. Nikulin, V. N. Verezhnikov, T. N. Poyarkova, A. A. Ryl'kov, and N. N. Shapovalova 1254

Polythermal Study of Cellulose Solution Enthalpy in *N*-Methylmorpholine *N*-Oxide
N. P. Novoselov, E. S. Sashina, E. Tager, I. L. Kozlov, and M. P. Kurlykin 1258

Imitation Simulation of Degradation of Lignin Macromolecules with Various Topological Structures
V. R. Pen and R. Z. Pen 1261

Influence of Fullerene C_{60} on Lubrication Process in the Steel–Copper Tribo Pair Clearance
A. A. Shepelevskii, L. A. Shibaev, B. M. Ginzburg, and V. P. Bulatov 1265

Some Process Aspects of Preparation and Use of Carboxyl-containing Polyvinyl Alcohol Fibers
E. N. Mikhailova, V. A. Khokhlova, E. L. Illarionova, T. I. Chufarovskaya, and T. N. Kalinina 1272

Chemistry of Fossil Fuel

Sorbents for Crude Oil, Based on Thermochemically Hydrophobized Wood Flour
Yu. A. Sangalov, A. I. Il'yasova, N. A. Krasulina, and N. E. Antonova 1276

Brief Communications

Plasticized High-Alumina Cement
N. F. Fedorov and O. M. Khalina 1282

Effect of Titanium Ions in Electrolyte on Electrodeposition of Copper
O. A. Inozemtseva and V. N. Samoilenko 1285

Electrodeposition of Indium–Cadmium Alloy from Acid Tartrate Electrolyte
G. A. Peristaya and Yu. P. Perelygin 1288

Copolymerization of 2-Hydroxyethyl Methacrylate with Fluoroalkyl Methacrylates
Sh. Sh. Sharakhmedov, R. Sh. Zaripova, and A. A. Yul'chibaev 1290

Anniversaries

Mikhail Mikhailovich Shul'ts (on the 80th Anniversary of His Birth) 1293

History of Chemistry and Chemical Technology

Rudol'f Lyudvigovich Myuller
A. G. Morachevskii 1295
