Contents

Vol. 72, No. 8, 1999

Simultaneous English language translation of the journal is available from МАИК "Наука/Interperiodica" (Russia). Distributed worldwide by Kluwer Academic/Plenum Publishers. *Russian Journal of Applied Chemistry* ISSN 1070-4272

Reviews

Features of Molecular Association of Water in Aqueous-Salt and Aqueous-Organic Solutions as Studied by Thermosensitive Probe Method with Poly(*N*-vinylcaprolactam)
Yu. E. Kirsh and K. K. Kalnin'sh 1299

Inorganic Synthesis and Industrial Inorganic Chemistry

Phase Relations in the Yb_2O_3–Rh_2O_3 System
V. N. Skrobot and R. G. Grebenshchikov 1312

Formation of Solid Phases of Titanium(IV) Phosphates in Aqueous Solutions
V. I. Ivanenko, I. A. Udalova, E. P. Lokshin, and V. A. Masloboev 1316

Recovery of Vanadium Compounds from Spent Sulfuric Acid Production Catalysts
V. L. Volkov, N. V. Podval'naya, and E. I. Andreikov 1322

Synthesis of FeOOH Nanolayers on Silica Surface by "Layer-by-Layer" Technique
V. P. Tolstoi 1326

Physicochemical Studies of Systems and Processes

Solubility and Composition of Solid Phases in the $Ba(HCOO)_2$–$Ni(HCOO)_2$–H_2O System at 25°C
A. A. Fakeev, N. N. Samofalova, L. D. Iskhakova, and B. V. Zhadanov 1329

Calculation of Boiling-Point Parameters for Metal and Metalloid Alkyls
I. B. Sladkov 1334

Influence of Surfactants on Photoactivation of Dielectrics
L. A. Brusnitsyna and G. A. Kitaev 1340

Sorption and Ion-Exchange Processes

Complexation of Platinum in Sorption of Tetrachloroplatinate(II) Ion by Fibrous Sorbent Based on Polyakrylonitrile Modified with Thiosemicarbazide
S. A. Simanova, T. V. Kuznetsova, A. N. Belyaev, O. V. Knyaz'kov, L. V. Konovalov 1344

Sorption Processes in a Multicomponent System Based on Epoxy–Amine Binder and Aromatic Polyamide Fibers
N. G. Cherkasova, R. L. Mokienko, and A. M. Ivanov 1351

Estimation of the Affinity of Some Sorbents for Aliphatic Alcohols by Piezoelectric-Crystal Microweighing
T. A. Kuchmenko, N. V. Semenyakina, and Ya. I. Korenman 1355

Extraction of Aromatic Hydrocarbons from Atmospheric Gas Oil
A. A. Gaile, V. E. Somov, O. M. Varshavskii, L. V. Semenov, L. L. Koldobskaya, and E. A. Kaifadzhyan 1363

Applied Electrochemistry and Corrosion Protection of Metals

Electrodeposition of Copper–Zinc Alloys from Trilonate Electrolytes
V. V. Povetkin, M. S. Zakharov, and R. R. Muslimov 1367

Electrochemical Behavior of Scandium in Chloride Melts
Yu. P. Stangrit and V. P. Yurkinskii 1371
Use of Fibrous Carbon Materials Based on Polyvinyl-Alcohol Fibers in Carbon-Paste Electrodes to Determine Polyphenolic Compounds
T. V. Druzhinina, A. V. Tolkachev, Yu. Yu. Volodin, and L. A. Nazar'ina 1374
Study of Bismuth-containing Oxide Compounds as Cathode Materials for Lithium Batteries
R. D. Apostolova and E. M. Shembel' 1377
Influence of Electrochemical Precipitation Conditions on the Phase Composition of Aluminum Hydroxide
A. A. Lamberov, R. G. Romanova, and A. G. Liakumovich 1381

Catalysis

Vapor-Phase Oxidation and Oxidative Ammonolysis of Some Methyl Derivatives of Biphenyl
A. A. Shapovalov, S. G. Koshel', D. Kh. Sembaev, M. V. Postnova, and G. N. Koshel' 1386

Environmental Problems of Chemistry and Technology

Systems for Continuous Water Quality Monitoring in the Flow
A. L. Moskvin, L. N. Moskvin, and I. A. Ardashnikova 1391
Use of Modified Semiconductor In_2O_3–SnO_2 Sensors To Determine Content of Ethanol Vapor in Exhaled Air
M. V. Ivanovskaya, P. A. Bogdanov, V. V. Romanovskaya, and D. R. Orlik 1396
Sorption of Phenol from Aqueous Solutions by Modified and Unmodified SKT-6A Activated Carbon
G. N. Buzanova, A. F. Tubolkin, A. V. Gaenko, and V. E. Soroko 1400

Organic Synthesis and Industrial Organic Chemistry

Some Principles of Chromatographic Characterization of New Classes of Organic Compounds, with Substituted Nitrochloroanilinesas Examples
I. G. Zenkevich and V. A. Kuznetsov 1403
Kinetics of Alkylation of 4-Amino-1,2,4-Triazole by 1-Bromobutane and 1,2-Dibromoethane
S. A. Gromova, M. I. Barmin, A. A. Mel'nikov, E. A. Korolev, and V. V. Mel'nikov 1409
Reactions of 1,1,2-Trifluoro-2-[hexafluoro-2'-(heptafluoropropoxy)propoxy]ethylene with Some Amines
G. G. Furin, I. A. Salmanov, and V. G. Kiriyanko 1418

Macromolecular Chemistry and Polymeric Materials

Features of Dimethylacrylamide Polymerization under the Action of Tris-π-allylchromium
L. A. Shibaev, L. A. Fedorova, T. A. Antonova, S. I. Klenin, B. L. Erusalimskii, P. P. Novakov, D. Kukling, and H.-J. P. Adler 1427
Structural Transformations in Concentrated Solutions of Photosensitive Polymers Based on Polyamido Acids
I. G. Silinskaya, N. A. Kalinina, N. V. Kukarina, T. A. Maricheva, V. N. Artem'eva, and V. V. Kudryavtsev 1433
Synthesis and Properties of Methacrylate–Methacrylic Acid Copolymer Dyed with Coumarin-7
V. N. Serova, L. N. Shmotova, V. V. Chirkov, and V. P. Arkhireev 1438
Synthesis of Copolymers of *N*-(2-Hydroxypropyl)methacrylamide with Acrylic Acid and Gentamicin Salts of These Copolymers
M. V. Solovskii, V. M. Denisov, N. Yu. Ryadinskaya, N. A. Petukhova, and N. V. Okulova 1443
Flocculating Properties and Molecular Characteristics of Copolymer of Sodium 2-Acrylamido-2-methylpropanesulfonate and *N*-Vinylpyrrolidone
V. F. Kurenkov, Z. F. Sharapova, and M. R. Khairullin 1450

Synthesis of Oligourethanes with Terminal Hydroxy Groups
V. V. Mikheev and L. T. Zainullina 1454
Role of Low-Temperature Cellulose Treatment in Paper Sheet Strengthening
I. I. Osovskaya and G. M. Poltoratskii 1458
Strength Characteristics and Prediction of Properties of Glass Fabric–Reinforced Composites Based on Modified Epoxy Resins
Yu. N. Anisimov, A. V. Kolodyazhnyi, and O. B. Grekhova 1462

Brief Communications

Precipitation of Copper from Manganese-containing Solutions
Yu. E. Sutyrin and A. M. Nurabaeva 1467
Oxygen Generation from Potassium Superoxide and Encapsulated Water
M. Yu. Volkov 1469
Effect of Salts on the Distribution Coefficient of Dimethylferrocenylcarbinol between Aqueous Solutions and Hexane
P. V. Fabinskii, V. P. Tverdokhlebov, and V. A. Fedorov 1471
Use of Phosphogypsum in Preliminary Purification of Concentrated Phenol-containing Sewages
V. P. Panov, I. V. Zykova, and I. L. Lysenko 1474
Electrodeposition of Tin–Indium Alloy From Citrate Electrolyte
O. V. Zor'kina and Yu. P. Perelygin 1476
Effect of Temperature on the Metal Electrodeposition Rate Distribution in the Bulk of High-Porous Cellular Electrode
V. I. Kichigin 1478
Dielectric Spectroscopy of Polytetrafluoroethylene Films in the Infrasound Region
S. D. Khanin and E. A. Karulina 1481

History of Chemistry and Chemical Technology

Sergei Vasil'evich Lebedev (On 125th Birthday Anniversary)
A. G. Morachevskii, V. S. Shpak 1484
