Vol. 59, No. 3, 2016

A simultaneous English language translation of this journal is available from Allerton Press, Inc.
Distributed worldwide by Springer. *Russian Aeronautics (Iz. VUZ)*, ISSN 1068-7998.

Aircraft Equipment

Method of Determining the Maximum Permissible Values for Diagnostic Signs
of Helicopter Transmission Units Operational Status

D. V. Nedel'ko

297

Structural Mechanics and Strength of Flight Vehicles

Dynamics of a Discretely Reinforced Cylindrical Shell under Live Load

B. A. Antuf'ev

303

Calculation of a Safety Factor of Damaged Composite Main Rotor Blade According
to Limit Equilibrium Theory

A. V. Gorelov, E. I. Nikolaev, and I. N. Sidorov

308

Stress-Strain Analysis of a Thin-Shell Part of Fuselage Using a Triangular Finite
Element with Lagrange Multipliers

Yu. V. Klochkov, A. P. Nikolaev, O. V. Vakhnina, and T. A. Kiseleva

316

Flight Dynamics and Control of Flight Vehicles

Control of Flight Vehicles with the Adjustable Center of Mass

V. A. Afanas'ev, G. L. Degtyarev, V. I. Kiselev, and A. S. Meshchanov

324

Methods for Investigating the Unmanned Aerial Vehicle Electric Actuator Performance
in Aeroelasticity Tasks

A. V. Bykov, G. V. Kondrashev, S. G. Parafes', and I. K. Turkin

331

Numerical Modeling of Helicopter Flight on a Prescribed Trajectory

A. M. Girfanov and R. A. Girfanova

338

Computationally Effective Mathematical Model of Airplane Flight

D. Yu. Kudryavtsev, D. A. Aminev, and A. S. Sviridov

344

Optimization of Project-Ballistic Parameters for Low Earth Orbit Spacecraft
with Propulsion Systems with Energy Storage

A. A. Khramov and S. A. Ishkov

351

Aero- and Gas-Dynamics of Flight Vehicles and Their Engines

Calculation and Optimization of Aerodynamic Characteristics of Airfoils with Jet
Blowing in the Presence of Vortex in the Flow

D. F. Abzalilov and R. F. Mardanov

358

Algorithm of Calculating the Light Airplane Flight Performance and Rational Design
Airscrew Parameters at the Preliminary Design Stage

T. Yu. Gainutdinova and A. V. Gainutdinova*

364

Open-Type Mixing Device of a Bubble Structure

I. A. Lepeshinskii, E. A. Istomin, I. A. Zarankevich, and V. A. Reshetnikov

371

Experimental Study of the Aerodynamics of a Wing with Various Configurations of Wingtip Triangular Extension	
<i>S. A. Popov, Gueraiche Djahid, and A. V. Kuznetsov</i>	376
Fluid Film Break-Up Modeling Using Adaptive Mesh Refinement Models	
<i>A. M. Sipatov, S. A. Karabasov, L. Yu. Gomzikov, T. V. Abramchuk, and G. N. Semakov</i>	381

Aircraft and Rocket Engine Design and Development

Spatial Vibration Protection in a Turbopump of Hydrogen Rocket Engines	
<i>A. I. Belousov and Yu.K. Ponomarev</i>	388
Diagnostics of Efficiency for a Cooling System of Compact Heat Exchangers with Coplanar Channels	
<i>A. V. Vikulin, N. L. Yaroslavtsev, and V. A. Chesnova</i>	395
Electric Charge Imposition on Hydrocarbon Fuel Drops in Sharply Inhomogeneous Electric Field of Injector Modules	
<i>D. Yu. Kolodyazhnyi and V. S. Nagorny</i>	402
Study of Flame Stabilization in a Model Gas Turbine Combustor	
<i>B. G. Mingazov and A. V. Baklanov</i>	408

Aircraft and Rocket Engine Theory

On a Problem of Reducing the Hydrodynamic Drag in the Pipelines of Power Plants	
<i>I. V. Anisimova, Yu.F. Gortyshov, and V. N. Ignat'ev</i>	414
Determination of Ingredient Composition of Atmospheric Emissions of the Turbojet Engine Combustion Gases by the Fine-Structure Spectroscopy	
<i>N. I. Moskalenko, R. Sh. Misbakhov, I. Z. Bagautdinov, N. F. Loktev, and I. R. Dodov</i>	419

Aircraft Instruments and Instrumentation Computer Complexes

Fiber-Optical Converters of Onboard Position Sensors for Aircraft Mechanization Devices	
<i>V. M. Grechishnikov and O. V. Teryaeva</i>	426

Aircraft Production Technology

Analysis of Innovative Methods Application for Production of Composite Integral Parts	
<i>V. I. Khaliulin and V. V. Batrakov</i>	433

TECHNICAL NOTES

Aircraft and Rocket Engine Design and Development

On the Calculation of Dibasic Solid Propellant Underwater Ignition by an Incandescence Spiral with a Metal Screen	
<i>V. D. Barsukov, S. V. Goldaev, N. V. Berdin, and V. V. Luk'yanov</i>	438
