

Contents

Vol. 64, No. 3, 2021

Aircraft Equipment

- Alternative Fuel in Transport Aviation and Estimation of Its Application Efficiency
A. S. Kretoy and V. V. Glukhov 365
-

Structural Mechanics and Strength of Flight Vehicles

- Analytical Estimates of the Fairing Flaps Separation Dynamics of the Rocket and Space Systems
V. N. Bakulin, S. V. Borzykh, and K. V. Tereshina 376
- Nonlinear Deformation and Stability of the Aircraft Fuselage Composite Section under Pure Bending
L. P. Zheleznyov and A. N. Ser'eznov 385
- Experimental Method to Study the Sound Wave Interaction with a Thin-Walled Obstacle
V. N. Paimushin, R. K. Gazizullin, and V. A. Firsov 394
- Mechanic-Mathematical Model of Indenting the Rigid Ball Particle into the Indicator Polymer Piezoelectroluminescent Coating
A. A. Pan'kov 402
- Study of Adhesively and Adhesive-Mechanically Bonded Joints in Load-Bearing Composite Tubes
L. P. Shabalin, V. I. Khaliulin, A. N. Shanygin, V. V. Savitskii, and I. V. Mareskin 408
-

Flight Dynamics and Control of Flight Vehicles

- Estimation of Vertical Take-off Unmanned Aircraft Flight Characteristics and Algorithm of Required Roll Angle Calculating for Trajectory Tracking
T. Yu. Gainutdinova, A. V. Gainutdinova, M. V. Trusfus, V. G. Gainutdinov, and T. A. Zamaleev 416
- Parametric Synthesis of Non-Stationary Control Systems with Uncertainties and Constraints
V. I. Garkushenko 424
- Onboard Iterative Algorithm of Defining the Parameters of Keplerian Orbits Based on Solving the Orbital Motion Equations in Velocity Reference Frame
N. E. Zubov, V. N. Ryabchenko, and A. V. Lapin 432
- Studying the Possibility of Creating a Dynamically and Elastically Scaled Blade of a Helicopter Main Rotor Model
M. A. Ledyankin and S. A. Mikhailov 441
-

Aero- and Gas-Dynamics of Flight Vehicles and Their Engines

- On Modeling the Operation of Slotted High-Lift Device Elements in a Spin Experiment at Low Reynolds Numbers
G. N. Bogomazova, M. A. Golovkin, A. A. Efremov, and O. V. Pavlenko 449
- On the Influence of the Laminar-Turbulent Transition in the Numerical Modeling of the Wing Airfoil
P. V. Bulat, N. V. Prodan, and A. A. Kurnukhin 455

Impact of High-Temperature Effects on Shock Inclination Angle in Super- and Hypersonic Flow around Sharp Cone	
<i>K. N. Volkov, V. N. Emel'yanov, A. G. Karpenko, and S.S. Tolstoguzov</i>	466
Influence of the Mixing Chamber Initial Section and Geometry on the Choice of Length of the Curved Ejector Mixing Chamber	
<i>S. S. Kartas, V. I. Panchenko, and S. I. Kharchuk</i>	476

Aircraft and Rocket Engine Design and Development

Inner Separation Area Precession as a Source for Initiating the Detonation or Quasi-Detonation Combustion in an Ejector Pulsejet Engine	
<i>K. V. Migalin, I. P. Boichuk, and K. A. Sidenko</i>	481
Analytical Calculation and Optimization of Performance Characteristics of the Ultralight Helicopter with Piston Engine	
<i>Yu. P. Onushkin, D. A. Sizov, A. V. Ostrovoi, and A. A. Nosov</i>	488
Influence of the Size Variation of Compressor Blades on Gas Dynamics and Strength Characteristics	
<i>A. V. Semenov and P. G. Kozhemyako</i>	497

Aircraft and Rocket Engine Theory

Chemically Nonequilibrium Flows of Nitrocellulose Fuel Combustion Products in Aircraft Engine Nozzles	
<i>V. G. Kryukov, A. L. Abdullin, and A. V. Demin</i>	503
Efficiency of a Hot Air Curtain Provided by Fan-Shaped Holes for Anti-Icing Systems of Aircraft and Their Engines	
<i>E. Yu. Marchukov, A. V. Starodumov, A. V. Il'inkov, A. V. Shchukin, and V. V. Takmoltsev</i>	511

Aircraft Instruments and Instrumentation Computer Complexes

Investigation of Parametric Uncertainty Influence on Accuracy of Strapdown Inertial Navigation System Transfer Alignment	
<i>K. K. Veremeenko, M. V. Zharkov, I. M. Kuznetsov, and A. N. Pron'kin</i>	518
Panoramic Sensor of the Aerodynamic Angle and True Airspeed with the Fixed Receiver and Ultrasonic Instrumentation Channels	
<i>V. V. Soldatkin, V. M. Soldatkin, E. S. Efremova, and A. V. Nikitin</i>	526
Usage of Standard Inductors in Aircraft Wireless Power Transmission Systems	
<i>A. A. Ukhov, M. P. Bulat, I. A. Volobuev, S. V. Shapovalov, and R. V. Li</i>	533

Aircraft Production Technology

Modeling the Process of Laser Cladding in an External Acoustic Field to Determine the Effect of Ultrasound Intensity on the Morphology of the Cladding Layer	
<i>B. A. Khamidullin, I. V. Tsivil'skii, and A. Kh. Gil'mutdinov</i>	540

Radio Engineering and Communication

Influence of Frequency Modulation Caused by the Onboard Radio Signal Reflection from the Helicopter Blades on the Aerodrome Automatic Direction Finders Accuracy	
<i>G. K. Aslanov, T. G. Aslanov, R. B. Kazibekov, and R. R. Musaibov</i>	547
Analysis of Noise Immunity of the UAV Onboard Control System Based on Physical Modeling of Induced Interference	
<i>Z. M. Gizatullin and M. P. Shleimovich</i>	554

Experimental Estimates of Angular Coordinates and Location of Radio Emission
Sources in Unmanned Aircraft Monitoring Systems

V. A. Shevtsov, V. V. Kirdyashkin, A. V. Timoshenko, and S. N. Razin'kov

562

TECHNICAL NOTES

Aircraft Production Technology

Pressure Measurement during the Pipe Expansion Using the Magneto Hydro Impulse
Method

Yu. P. Kataev and P. I. Kuvshinov

571

Radio Engineering and Communication

Quantum Key Distribution System with Double Orthogonal Spectral Polarization
and Frequency Coding

I. M. Gabdulkhakov, O. G. Morozov, A. A. Kuznetsov, A. V. Burdin, and M. Tiwari

577
