Vol. 57, No. 4, 2014

A simultaneous English language translation of this journal is available from Allerton Press, Inc.
Distributed worldwide by Springer. *Russian Aeronautics (Iz. VUZ)*, ISSN 1068-7998.

Aircraft Equipment

Analysis of Characteristics of All-Metal Vibration Insulators Made of Different Wire Materials

G. V. Lazutkin, A. I. Ermakov, D. P. Davydov, K. V. Boyarov, and P. V. Bondarchuk 327

Flight Dynamics and Control of Flight Vehicles

Stabilization of Stationary Motions of a Gyrostat with a Cavity Filled with Viscous Fluid

S. P. Bezglasnyi 333

Landing of Flight Vehicles without the Landing Gear

V. A. Afanas'ev, G. L. Degtyarev, A. S. Meshchanov, and R. T. Sirazetdinov 339

Implementation of Artificial Neuron Networks for Simulation of Loads Generated by the Helicopter Rotors

A. M. Girfanov and O. A. Ledyankina 344

Characterization and Selection of Basic Parameters for Steering Servo of a Small Remotely-Piloted Single-Rotor Helicopter with Tail Rotor

D. A. D'yakonov, O. A. Zavalov, D. A. Kuptsov, and I. K. Turkin 349

On the Effect of Correcting the Electrohydraulic Servo Drive Dynamic Characteristics of the Servo Drive–Mass System

V. S. Metrikin and M. A. Peisel' 353

Aircraft Longitudinal Control without a Pitch Command in Autopilot

L. G. Romanenko, A. G. Romanenko, and G. G. Samarova 361

Aero- and Gas-Dynamics of Flight Vehicles and Their Engines

Aerodynamic Criterion of Weak Blowing in Optimal Control of Laminar Boundary Layer in Supersonic Flows on Permeable Surfaces

K. G. Garaev and I. R. Mukhametzyanov 368

Influence of Fluid Film on Friction of a Flat Plate

N. I. Klyuev and Yu. A. Kryukov 372

Aircraft and Rocket Engine Design and Development

Methodology of Modernizing the Serial Converted Gas Turbine Unit

A. I. Belousov and S. V. Nazdrachev 378

Test Procedure and Test Rig for Determining the Load Capacity of Axial Gas Foil Bearings

Yu. A. Ravikovich, Yu. I. Ermilov, and D. P. Kholobtsev 383

Aircraft and Rocket Engine Theory

- Pressure Fluctuation Fields in Front of Inclined Forward-Facing Steps and Behind Inclined Backward-Facing Steps
A. Yu. Golubev and D. G. Zhestkov 388

- Boiling Heat Transfer of Different Liquids on Microstructured Surfaces
I. A. Popov, A. V. Shchelchikov, N. N. Zubkov, R. A. Lei, and Yu. F. Gortyshov 395
-

Aircraft Instruments and Instrumentation Computer Complexes

- Vortex Sensor of Aerodynamic Angle and True Airspeed with Enhanced Functionality
E. S. Soldatkina and V. M. Soldatkin 402
-

Radio Engineering and Communication

- Microwave Distance Sensor of Helicopter Fire-Fighting System
A. E. Ananikov, A. V. Karpyshev, V. M. Nuzhdin, V. V. Rastorguev, V. B. Shnaider, and G. A. Morozov 406
-

TECHNICAL NOTES

Flight Vehicle Design

- Truss Core Mass Design Analysis of Cantilever Bending Sandwich Structure with Variable Spanwise and Chordwise Dimensions
T. Yu. Gainutdinova and A. V. Gainutdinova 412
-

Aircraft and Rocket Engine Design and Development

- Architecture of a Multifactor Conceptual Model of High-Speed Rolling-Contact Bearing for Aircraft Engines and Research Guidelines
B. M. Silaev and P. A. Danilenko 416
-

Aircraft Production Technologies

- Creasing on the Elastic Base
I. M. Zakirov and I. I. Zakirov 421
- Analysis of Dimensional Errors Occurring in GTE Parts Processing on a Multiaxis NPC Grinding Machine
E. Yu. Ismailova and F. I. Demin 425
- A Mathematical Model of Acoustic Properties of Gas Turbine Engine Sound Absorbing Elements Made From Elastic Porous Metal Rubber
A. I. Safin, A. A. Igolkin, and A. B. Prokof'ev 430
- Mathematical Representation of Gas Laser Metalcutting Based on the Quasisteady Melt Flow
F. K. Smorodin and G. F. Mingaleev 435
-
-
