NUMBER 12

2005

RUSSIAN ELECTRICAL ENGINEERING

	PAGES RUSSIAN/ENGLISH	
Smart systems in switching high-voltage circuits. G. S. Belkin.....	3	1
External characteristics of facts devices and their influence on the power characteristics of controllable ac lines. V. N. Ivakin.....	10	7
Electrical strength of polymer insulators for high- and ultrahigh-voltage transmission lines. O. V. Volkova, V. V. Godulyan, A. R. Koryavin, E. I. Ostapenko, and V. Z. Trifonov.....	19	18
Multiwinding energy converters for autonomous power systems. P. Yu. Grachev, M. L. Kostyrev, F. N. Myagkov, and P. A. Kuntsevich.....	24	23
Improving the electric power at agricultural enterprises. G. I. Litovkin, A. I. Orlov, and A. N. Tret'yakov.....	29	28
Bridge inverter with nonlinear switching chokes and a single semiconductor switch. E. A. Dizendorf	33	32
Ongoing switch diagnostics in the high-speed regulator of a power transformer. G. M. Mikheev, Yu. A. Fedorov, and G. M. Mikheev	41	39
Improving the power characteristics and working life of high-voltage pulsed capacitors. I. Yu. Grebennikov, V. I. Gun'ko, A. Ya. Dmitrishin, L. I. Onishchenko, and I. S. Shvets	47	46
Modernized control system for the electrical equipment in the PM-230 loading machine of the VVER-440 reactor at Kol'sk Nuclear Power Plant. Yu. P. Kuznetsov, A. V. Biryukov, G. V. Karpova, L. A. Prokofeva, P. M. Limorenko, E. A. Nikiforov, A. G. Pridatkov, B. A. Teskin, B. V. Ryabinin, and S. V. Tarasov	51	50
