RUSSIAN MATHEMATICS (Iz. VUZ)

	Pages Russian/English
<i>Noetherian multidimensional integral operators with homogeneous and quasihomogeneous kernels.</i> O.G. Avsyankin	3 1
<i>Solution methods for one class of multidimensional singular integral equations.</i> B.G. Gabdulkhaev and R.K. Gubaidullina	11 9
<i>Asymptotically correct mappings.</i> N.A. Erzakova	17 15
<i>Weakly combinatorial-selector sets.</i> D.I. Ivanov	22 20
<i>On the commutativity relation in semigroups of injections.</i> V.A. Kolmykov	26 24
<i>Stable finiteness of group rings.</i> M.F. Nasrutdinov	29 27
<i>Generators and defining relations of the generalized full linear group over semilocal rings without unity. II.</i> Zh.S. Satarov	33 31
<i>Conformally connected space.</i> A.V. Stolyarov	42 40
<i>The behavior of solutions to one-phase Stefan problem with large values of time.</i> V.I. Ushakov and A.V. Klochkov	55 52
<i>The Caratheodory problem in the class $\mathcal{S}[a, b]$.</i> Abdon E. Choque Rivero	61 58
<i>The left connection on the tensor bundle of type $(2, 0)$ of a Lie group.</i> N.A. Opokina	77 74
