RUSSIAN MATHEMATICS (Iz. VUZ)

	<div style="display: inline-block; text-align: right;"> Pages Russian/English </div>
<i>Parallelization of computations for the optimal control of large dynamic systems.</i> R. Gabasov, N.M. Dmitruk, and F.M. Kirillova	3 1
<i>A theorem on separability of a convex polyhedron from zero point of the space and its applications in optimization.</i> Z.R. Gabidullina	21 18
<i>Stability of the vector Boolean minimization problem on absolute deviations of linear functions from zero.</i> E.E. Gurevskii and V.A. Emelichev	27 24
<i>The Fejer methods for the strong separability of convex polyhedral sets.</i> I.I. Eremin	33 30
<i>The linear convergence rate of the methods with iterative proximal regularization.</i> A.Ya. Zolotukhin, R.V. Namm, and A.V. Pachina	44 41
<i>Symmetric duality in optimization and its applications.</i> V.I. Zorkaltsev	55 53
<i>The characterization of types of maximally noninteger vertices of a polyhedron in the three-index axial assignment problem.</i> V.M. Kravtsov	65 63
<i>A regularization method for oligopolistic equilibrium problems.</i> E.O. Mazurkevich	69 67
<i>Sequential derivatives of operators and their applications in nonsmooth problems of optimal control.</i> S.Ya. Serovaiskii	75 73
