|                                                                                                                                                   |    |
|---------------------------------------------------------------------------------------------------------------------------------------------------|----|
| On the Non-Existence of Periodic Orbits for a Class of Two-Dimensional Kolmogorov Systems<br><i>R. Boukoucha</i>                                  | 1  |
| Generalized Absolute Convergence of Series of Fourier Coefficients With Respect to Haar Type Systems<br><i>S. S. Volosivets and B. I. Golubov</i> | 7  |
| On Complete Sublattices of Formations of Finite Groups<br><i>N. N. Vorob'ev</i>                                                                   | 17 |
| On Summary Equation Generated by a Quadrangle<br><i>F. N. Gariř'yanov</i>                                                                         | 23 |
| Nonlinear Summation of Power Series and Exact Solutions of Evolution Equations<br><i>A. I. Zemlyanukhin and A. V. Bochkarev</i>                   | 29 |
| On Riemann Boundary-Value Problem for Regular Functions in Clifford Algebras<br><i>S. P. Kuznetsov, V. V. Mochalov, and V. P. Chuev</i>           | 36 |
| Generalized Solutions to Boundary-Value Problems for Quasilinear Elliptic Equations on Noncompact Riemannian Manifolds<br><i>E. A. Mazepa</i>     | 50 |
| Computable Linear Orders and the Ershov Hierarchy<br><i>Ya. A. Mikhailovskaya and A. N. Frolov</i>                                                | 58 |
| Estimate of the Order of Growth of a Class of Entire Functions on the Real Axis<br><i>E. Mukhamadiev and A. N. Naimov</i>                         | 65 |
| Boundary-Value Problem With Saigo Operators for Mixed Type Equation With Fractional Derivative<br><i>O. A. Repin</i>                              | 70 |
| On Generalization of Haar System and Other Function Systems in Spaces $E_\varphi$<br><i>V. I. Filippov</i>                                        | 76 |
| <b>Brief communications</b>                                                                                                                       |    |
| Conditional Gradient Method Without Line-Search<br><i>I. V. Konnov</i>                                                                            | 82 |
