RUSSIAN MATHEMATICS (Iz. VUZ)

	Pages Russian/English
<i>The inverse boundary value problem with data on parallel characteristics for a hyperbolic equation.</i> S.P. Baigazov	3 1
<i>The convergence rate of the Rothe method for a system of Burgers equations in a noncylindrical domain.</i> P.V. Vinogradova and A.G. Zarubin	12 10
<i>On the proof of the quadrature method for solution of integral equations.</i> L.B. Ermolaeva	20 18
<i>Symmetry and potentiality in the general problem of the branching theory.</i> B.V. Loginov, I.V. Konopleva, and Yu.B. Rusak	30 28
<i>The Cauchy problem for a multidimensional system of Lamé equations.</i> O.I. Makhmudov and I.E. Niezov	41 39
<i>Stability with respect to a subspace of solutions of linear systems with variable delay.</i> K.M. Chudinov	51 50
<i>On similarity of second order matrices over the ring of whole numbers.</i> V.N. Shevchenko and S.V. Sidorov	57 56
<i>On generalized solutions of linear differential-algebraic systems.</i> A.A. Shcheglova	65 64
<i>About the algorithm of dual cuttings for a two-stage stochastic programming problem.</i> A.S. Velichko	78 77
