## RUSSIAN MATHEMATICS (Iz. VUZ)

	<div style="display: inline-block; text-align: center;"> <b>Pages</b>                      Russian/English                 </div>
<i>Darboux–Protter problems for degenerate multidimensional hyperbolic equations.</i>	
S.A. Aldashev .....	3      1
<i>Solvability conditions for a system of linear Diophantine equations with prime variables.</i>	
I.A. Allakov .....	10      8
<i>Uniform approximations of a solution of a singular integral equation of the first kind with the Cauchy kernel on a segment.</i>	
L.E. Valiullova and A.V. Ozhegova.....	17      15
<i>The Stieltjes moments of entire functions from class A.</i>	
F.N. Garif'yanov.....	23      21
<i>Weakly implicative selector sets.</i>	
D.I. Ivanov .....	29      27
<i>On nilpotency and decomposition of algebras of associative type.</i>	
N.A. Koreshkov .....	30      32
<i>Solution of the Dirichlet problem for the Helmholtz equation in domains with a rough boundary.</i>	
E.K. Lipachev .....	42      40
<i>Correctness of double-layer multicomponent difference schemes for nonlinear hyperbolic equations.</i>	
A.D. Lyashko and E.M. Fedotov .....	50      47
<i>On certain classes of subspaces affiliated with a von Neumann algebra in the representation space of the algebra <math>\mathcal{B}(H)</math> associated with a weight.</i>	
E.A. Turilova.....	58      55
<i>A partial differential equation with singular coefficients.</i>	
E.A. Utkina .....	66      63
<i>Modules of continuity of unbounded operators.</i>	
G.V. Khromova .....	64      67
<i>Transformation operators and their application to the solution of problems about the structure of wave and temperature fields in a piecewise homogeneous half-space.</i>	
T.V. Eliseeva .....	78      75
