Vol. 2009, No. 4

Simultaneous English language translation of the journal is available from Pleiades Publishing, Ltd.
Distributed worldwide by Springer. *Russian Metallurgy (Metally)* ISSN 0036-0295.

Phase Transformations and the Kinetics of Interaction of Microlite and Struverite with Carbon	
<i>V. M. Chumarev, V. P. Mar'evich, and A. N. Mansurova</i>	277
Effect of the Cooling Rate on the Phase Composition and Structure of Copper Matte Converting Slags	
<i>E. N. Selivanov, R. I. Gulyaeva, L. Yu. Udoeva, V. V. Belyaev, and A. A. Pankratov</i>	281
Interaction of Pentlandite, Chalcopyrite, and Pyrrhotine with Elementary Sulfur: I. Sulfidizing of Pentlandite	
<i>L. N. Ertseva, V. T. D'yachenko, and L. Sh. Tsemekhman</i>	289
Melting of Metals during Rapid Bulk Heating	
<i>V. Ya. Chekhovskoi and V. D. Tarasov</i>	297
Plastic Deformation of Metals during the Removal of a Surface Layer from a Deformed Body	
<i>M. Ya. Brovman</i>	303
Physical Metallurgy Conditions for Retaining the Load-Carrying Ability of the Gas-Main Pipeline Metal during Long-Term Operation	
<i>M. M. Kantor, V. N. Voronin, V. A. Bozhenov, V. G. Antonov, and Yu. M. Sharygin</i>	314
Structure and Phase Composition of Iron–Nickel Cast Alloys with an Overequilibrium Nitrogen Content	
<i>V. M. Blinov, Ch. Andreev, L. Nenova, M. V. Kostina, and E. V. Blinov</i>	322
Effect of the Quenching Temperature on the Structural State of High-Speed Steels	
<i>D. I. Doronin, A. D. Rusakov, and Yu. A. Lukina</i>	329
Increasing the Hardness of ShKh15 Steel in Its Products	
<i>V. I. Antipov, L. V. Vinogradov, E. M. Lazarev, Yu. E. Mukhina, A. E. Antoshchenkov, D. I. Doronin, Yu. A. Lukina, and I. V. Kochetova</i>	334
Effect of Alloying Elements on the Structure and Properties of Al–Li–Cu Cast Alloys	
<i>A. A. Il'in, S. L. Nikitin, O. E. Osintsev, and Yu. V. Borisov</i>	338
Mechanism of the Formation of an Amorphous (for X-ray Diffraction) Structure in Electrodeposited Co–W Alloy Films	
<i>T. A. Tochitskii and A. E. Dmitrieva</i>	345
Mechanochemical Preparation of $\text{Ni}_x\text{Al}_y/\text{Al}_2\text{O}_3$ Nanocomposites	
<i>T. F. Grigor'eva, I. A. Vorsina, A. P. Barinova, S. V. Tsybulya, O. A. Bulavchenko, and N. Z. Lyakhov</i>	351
Properties of Fe–Co Alloy Nanopowders Formed under Various Conditions	
<i>I. G. Kolesnikova, B. M. Freidin, Yu. V. Kuz'mich, and V. I. Serba</i>	357
Formation of an Interphase Interface in the Ni–Mo System during Irradiation by High-Energy Electrons	
<i>A. V. Artamonov, G. G. Bondarenko, and M. M. Yakunkin</i>	360
Formation of the Microgeometry of the Wear Surface of Electrometallized Coatings during Sliding Friction	
<i>G. G. Vinokurov, O. N. Popov, and N. F. Struchkov</i>	365
