Vol. 42, No. 1, 2017

Simultaneous English language translation of the journal is available from Allerton Press, Inc.
Distributed worldwide by Springer. *Russian Meteorology and Hydrology* ISSN 1068-3739.

Forecasting Hurricane Winds in Extratropical Cyclones in Russia <i>A. A. Alekseeva</i>	1
Forecasting Mesoscale Convective Systems in the Urals Using the WRF Model and Remote Sensing Data <i>N. A. Kalinin, A. N. Shikhov, and A. V. Bykov</i>	9
Interrelations between the Atmospheric Electric Field, Air Pressure, and Hydrogeological Processes <i>V. N. Shuleikin and G. G. Shchukin</i>	19
A Compact Form for the Analytic Description of Temperature Dependence of Saturation Vapor Pressure over Plane Surfaces of Water and Ice <i>N. P. Romanov</i>	27
Long-range Forecasting of the Dates of the Stable 8 C Crossing in Average Daily Air Temperature in the Volga Federal District <i>N. A. Vazhnova and M. A. Vereshchagin</i>	38
Semidiurnal Frequency of the Fields of the Arctic Ice Rarefaction and Compression from the MTVZA-GYa Satellite Radiometer Data <i>M. V. Bukharov</i>	46
Concentration of ¹⁸ O in Precipitation over Moscow in 2014 <i>Ju. N. Chizhova, I. D. Eremina, N. A. Budantseva, G. V. Surkova, and Yu. K. Vasil'chuk</i>	54
Chemical Composition of Precipitation and Snow Cover in the Primorsky Krai <i>I. I. Kondrat'ev, D. E. Mukha, A. G. Boldeskul, S. G. Yurchenko, and T. N. Lutsenko</i>	64
Identification of the Optimal Integration of the Hydrologic Model with Meteorology Data Using the Advanced GIS Object-oriented Programming <i>K. Kang and J. H. Lee</i>	71
