Vol. 47, No. 2, 2022

Long-term Variability of Rossby Wave Breaking in the Subtropical Jet Stream Area <i>A. V. Gochakov, O. Yu. Antokhina, V. N. Krupchatnikov, and Yu. V. Martynova</i>	79
Method for Setting Conditions at Open Lateral Boundaries in the Baltic Sea Hydrothermodynamic Model Based on Variational Assimilation of Salinity Data <i>T. O. Sheloput and A. V. Gusev</i>	89
Relationships between Satellite-derived Snow Cover Extent in the Northern Hemisphere and Surface Air Temperature <i>I. I. Mokhov and M. R. Parfenova</i>	98
Methodology for Calculating the Spatial Distribution of Snow Depth in Complex Terrain with Insufficient Meteorological Information: A Case Study for the Anyuy Range <i>G. B. Pigol'tsina and D. V. Fasol'ko</i>	107
Mapping Modern Climate Change in the Selenga River Basin <i>E. Zh. Garmaev, S. V. P'yankov, A. N. Shikhov, A. A. Ayurzhanayev, B. V. Sodnomov, R. K. Abdullin, B. Z. Tsydypov, S. G. Andreev, and V. N. Chernykh</i>	113
Inflow of Biogenic Elements with the Barguzin River Water and Their Role in Eutrophication of the Barguzin Bay (Lake Baikal) <i>L. M. Sorokovikova, V. N. Sinyukovich, V. G. Ivanov, E. V. Eletskaia, E. V. Molozhnikova, N. V. Bashenkhaeva, and I. V. Tomberg</i>	123
Changes in the Concentration and Flux of Dissolved Biogenic Elements in the Yenisei River <i>I. V. Tokareva, M. P. Prokushkina, M. A. Korets, A. V. Panov, A. G. Georgiadi, and A. S. Prokushkin</i>	133
Ice Ridges in the Shokalsky Strait: The 2019 Research <i>V. V. Kharitonov</i>	141
Temperature Variability in Murmansk over the Last 70 Years: Long-term Trends and Extreme Events <i>Yu. V. Selivanova, Yu. A. Zyulyaeva, and I. I. Zveryaev</i>	148
