Vol. 47, No. 4, 2022

Polar Mesoscale Cyclon Climatology for the Eastern Sector of the Eurasian Arctic Based on the Arctic System Reanalysis <i>D. A. Iarovaia and V. V. Efimov</i>	251
Criteria to Identify Polar Lows <i>N. V. Vazaeva, O. G. Chkhetiani, and E. A. Durneva</i>	262
Retrieval of Total Precipitable Water from Meteor-M No. 2-2 MTVZA-GYa Data Using a Neural Network Algorithm <i>A. A. Filei, A. I. Andreev, M. O. Kuchma, and A. B. Uspensky</i>	272
Variability of Total Precipitable Water over the North Atlantic and North Pacific According to Satellite Microwave Sounding <i>R. Yu. Lukianova, G. V. Alekseev, and M. V. Serikov</i>	281
Interannual Variability of Thermal Conditions in the Kuroshio Energetically Active Zone and Adjacent Areas of the Philippine Sea <i>I. D. Rostov, E. V. Dmitrieva, and N. I. Rudykh</i>	290
Retrieval of Total Column Carbon Dioxide over Russia from Meteor-M No. 2 Satellite Data <i>V. V. Golomolzin, A. N. Rublev, Yu. V. Kiseleva, D. A. Kozlov, A. S. Prokushkin, and A. V. Panov</i>	304
Features of Development of a Supercell Convective Cloud at the Stage of Maximum Lightning Activity (August 19, 2015, the North Caucasus) <i>M. T. Abshaev, A. M. Abshaev, A. A. Sinkevich, Yu. P. Mikhailovskii, N. E. Veremei, V. N. Stasenko, A. Kh. Adzhiev, S. D. Pawar, and V. Gopalakrishnan</i>	315
