Contents

Vol. 40, No. 6, 2015
Simultaneous English language translation of the journal is available from Allerton Press, Inc.
Distributed worldwide by Springer. *Russian Meteorology and Hydrology* ISSN 1068-3739.

Milestones of the Development of Computational Geophysical Fluid Dynamics
V. P. Dymnikov 359

Methods Based on the Joint Use of Models and Observational Data in the Framework of Variational Approach to Forecasting Weather and Atmospheric Composition Quality
V. V. Penenko, E. A. Tsvetova, and A. V. Penenko 365

Development of the Multiscale Version of the SL-AV Global Atmosphere Model
M. A. Tolstykh, J.-F. Geleyn, E. M. Volodin, N. N. Bogoslovskii, R. M. Vilfand, D. B. Kiktev, T. V. Krasjuk, S. V. Kostrykin, V. G. Mizyak, R. Yu. Fadeev, V. V. Shashkin, A. V. Shlyaeva, I. N. Ezau, A. Yu. Yurova 374

Variational Data Assimilation for Optimizing Boundary Conditions in Ocean Models
K. Kazantseva, E. Kazantsev, and M. A. Tolstykh 383

The Thermosphere General Circulation Modeling with the Parametrization of Radiative Processes
D. V. Kulyamin, V. Ya. Galin, A. I. Pogoreltsev 392

The COSMO-Ru System of Nonhydrostatic Mesoscale Short-range Weather Forecasting of the Hydrometcenter of Russia: The Second Stage of Implementation and Development
G. S. Rivin, I. A. Rozinkina, R. M. Vil'fand, D. Yu. Alferov, E. D. Astakhova, D. V. Blinov, A. Yu. Bundel', E. V. Kazakova, A. A. Kirsanov, M. A. Nikitin, V. L. Perov, G. V. Surkova, A. P. Revokatova, M. V. Shatunova, and M. M. Chumakov 400

Studying the Sensitivity of the Optimal Solution of the Variational Data Assimilation Problem for the Baltic Sea Thermodynamics Model
V. P. Shutyaev and E. I. Parmuzin 411

Geoecological Assessment of Small Rivers in the Big Industrial City Based on the Data on Heavy Metal Content in Bottom Sediments
Z. I. Slukovskii 420

Peculiarities of the Distribution of Methane Concentration and Methane Fluxes at the Water–Air Interface in the Tatar Strait of the Sea of Japan
G. I. Mishukova, V. F. Mishukov, A. I. Obzhirov, N. L. Pestrikova, and O. F. Vereshchagina 427
