Changes in Precipitation Regime over the Territory of Russia: Data of Regional Climate Modeling and Observations <i>E. I. Khlebnikova, Yu. L. Rudakova, and I. M. Shkolnik</i>	431
Climatic Changes in Thermal Conditions of Sea Areas in the Eastern Arctic at the Turn of the 20th and 21st Centuries <i>I. D. Rostov, E. V. Dmitrieva, and A. A. Vorontsov</i>	440
Variability of Cloud Parameters from Satellite Data <i>A. V. Skorokhodov</i>	452
Using Convolutional Neural Networks for Cloud Detection from Meteor-M No. 2 MSU-MR Data <i>A. I. Andreev, Yu. A. Shamilova, and E. I. Kholodov</i>	459
Using $^{18}\text{O}$ as a Tracer of the Formation of Water Masses in the Laptev Sea. Part 2. Quantification of the Volume of Atlantic, River, and Melt Water as well as Water Withdrawn for Ice Formation <i>A. A. Namyatov and I. A. Semeryuk</i>	467
Variability of Thermohaline Characteristics at 26.5°N in Reanalyses and Oceanographic Section Data <i>A. R. Gorbushkin and A. N. Demidov</i>	474
Studying the Areal Rainfall Reduction in the Urals Based on Radar Data <i>D. E. Klimenko</i>	484

---

## Communications

Spatiotemporal Variability of the Climate and Dangerous Hydrometeorological Phenomena on the Crimean Peninsula <i>E. I. Ergina and V. O. Zhuk</i>	494
