CONTENTS

VOLUME 46 NUMBER 10 2005

RUSSIAN JOURNAL OF NON-FERROUS METALS

	PAGES RUSSIAN	PAGES ENGLISH
Metallurgy of Non-Ferrous Metals		
Current efficiency of zinc and specific consumption of energy as functions of different factors in course of electrolysis of pure sulfuric acid solutions. M. I. Alkatsev, Yu. I. Kondrat'ev, and V. M. Alkatsev	11	1
Removal of sulfates from a melt of flotation carnalite. A. V. Litvinov and V. Z. Poilov	16	7
Casting Production		
Fabrication of ingots from hypereutectic piston silumin by semicontinuous casting. M. V. Belov, V. D. Belov, and E. B. Ten	30	13
Influence of casting temperature on structure and properties of alloys of copper metals (survey). A. V. Korchmit	34	18
Physical Metallurgy and Heat Treatment		
Strength of Al–Ce–Ni eutectic alloys. Sh. Goto, S. Aso, Y. Komatsu, N. A. Belov, and V. S. Zolotarevskii	40	24
Powder Materials and Coatings		
Derivatographic investigation of low-temperature oxidation of powdered metals. T. A. Emel'yanova and A. S. Semenova	48	34
Energy Savings and Environmental Protection		
One area of application of the principle of a vortex chamber in metallurgy. V. A. Arutyunov, I. A. Levitskii, S. V. Leshinin, and T. B. Ibadullaev	70	43
