RUSSIAN JOURNAL OF NON-FERROUS METALS

	PAGES RUSSIAN	PAGES ENGLISH
Mineral Processing of Non-Ferrous Metals		
Testing of polymer films as material for waterproofing of the equipment of heap leaching installations. G. Ya. Druzhina and E. A. Trufanov	4	1
Metallurgy of Non-Ferrous Metals		
Thermodynamic analysis of possible transformations in the metal sulfide – water vapor system. V. A. Vostrikov and N. M. Vostrikova	8	6
Determining the optimal conditions for precipitation of hydroxides of impurity metals in purification of waste water. I. P. Shidlovskaya, G. I. Mal'tsev, and S. S. Naboichenko	14	12
Metallurgy of Less-Common and Precious Metals		
Influence of different factors on the final composition of cakes in decomposition of tungsten-containing organometallic mixtures. A. G. Ermilov, N. N. Rakova, and N. V. Evdokimova	36	16
Nitrogen peroxide autoclave technology for breakdown of rebellious gold in sulfide concentrates. G. G. Mineev and I. A. Zhuchkov	42	23
Physical Metallurgy and Heat Treatment		
The Ti–Al–Mo system as a basis of the phase composition diagram of annealed titanium alloys. B. A. Kolachev, A. A. Il'in, and D. V. Ryndenkov	56	28
Wear resistance and mechanical properties of alloys used for medical purposes. M. I. Petrzhik, M. R. Filonov, K. A. Pechyorkin, E. A. Levashov, V. N. Olesova, and A. I. Pozdeev	62	35
Information		
A computer-training complex using functioning industrial control and measurement devices is an effective means of training and retraining highly skilled specialists in evening, night, and distance teaching. Z. G. Salikhov and L. A. Kiselev	78	44
