CONTENTS

VOLUME 46 NUMBER 2 2005

RUSSIAN JOURNAL OF NON-FERROUS METALS

	PAGES RUSSIAN	PAGES ENGLISH
Mineral Processing of Non-Ferrous Metals		
Study of sintered lithium carbonate and hydroxodialuminate products. I. I. Vatulin and V. V. Miklushevskii	9	1
Metallurgy of Less-Common and Precious Metals		
Chlorination of powders of niobium, tantalum, titanium and their alloys. D. V. Drobot, A. V. Chub, and A. A. Varganova	18	6
Metal Forming		
Technique for evaluating the critical tensions to ensure stability of the non-ferrous metal strip rolling process. R. L. Shatalov, N. D. Lukashkin, and L. S. Kokhan	28	13
Physical Metallurgy and Heat Treatment		
On optimizing the technology of consolidated coil processing. M. P. Nadezhkin and M. Z. Pevzner	37	17
Powder Materials and Coatings		
Theoretical evaluation of the possibility of obtaining metal-matrix composites with small strengthening particle dimension. V. A. Popov, A. V. Marmulev, and M. Yu. Kondratenkov	52	24
Structural Macrokinetics. SHS		
Thermal conductivity of powder mixtures for gas-free combustion. A. N. Emel'yanov, V. M. Shkiro, A. S. Rogachev, and N. A. Kochetov	60	30
(continued)		
Surface Engineering. Multifunction Films. Corrosion and Metal Protection		
Wear-resistant boron and chromium diffusion coatings that are obtained in a fluidized bed. Yu. A. Balandin	63	34

Process Control and Automation

Monitoring the clarified-layer sediment quality in coagulators by a spectral method. A. L. Rutkovskii, A. A. Saakyants, V. M. Tekiev, and I. I. Bolotaeva 73 38
