	PAGES RUSSIAN	PAGES ENGLISH
Metallurgy of Less-Common and Precious Metals		
Creating alloys that contain rare-earth metals by means of high-temperature exchange reactions. V. A. Ivanov, A. V. Krylosov, O. I. Rebrin, and M. G. Shtutsa	48	1
High-temperature electrochemical synthesis of nickel(cobalt)-molybdenum (tungsten) alloys and intermetallic compounds in tungstate oxide melts. V. V. Malyshev	54	10
Metal Forming		
Plastometric investigation of the limiting ductility and torsional strain resistance of hypereutectic silumin 01390 in process of helical rolling of rods and pipes. E. I. Panov, G. I. Eskin, A. M. Galkin, and A. O. Kon'kov	62	20
Physical Metallurgy and Heat Treatment		
Analysis of influence of technological factors on crack formation in welding of brass tube. M. Z. Pevzner	71	30
