RUSSIAN JOURNAL OF NON-FERROUS METALS

	PAGES RUSSIAN	PAGES ENGLISH
Metallurgy of Non-Ferrous Metals		
Refining copper with an elevated nickel content by means of reagents that contain silicon. A. I. Vol'khin	4	1
Metallurgy of Less-Common and Precious Metals		
The world market for gallium: a review. A. V. Naumov	14	7
Thermodynamics of the silver–cadmium system and the upper limit of existence of liquid alloys. V. N. Volodin, V. E. Khrapunov, B. K. Kenzhaliev, R. A. Isakova, and M. Moldabaev	22	15
Casting Production		
Defects in the centrifugal casting of tin bronzes. A. V. Korchmit and Yu. P. Egorov	42	23
Metal Forming		
Classification and applications of combined treatment processes for non-ferrous metals and alloys. S. B. Sidel'nikov	45	27
Structural Macrokinetics, SHS		
Producing heat-resistant metal–ceramic coatings based on titanium silicide and nitride by thermoreactive electrospark strengthening. E. I. Zamulaeva, E. A. Levashov, A. E. Kudryashov, P. V. Vakaev, and T. A. Sviridova	63	31
Process Control and Automation		
Dissociation of components in gaseous-fuel combustion. A. L. Rutkovskii, A. M. Davidson, S. S. Chursalova, and T. V. Starikova	77	39
